SENATE RATIFIES 4 TREATIES

ONE KILLED, 3 HURT IN RAIL CROSSING CRASH NEAR MILDRED

FIRST COUNTY TRAFFIC FATALITY OF YEAR IS CAUSED BY COLLISION

One man is dead and three other persons were hospitalized as a result of a crash involving an automobile and a small railroad motorcar at the intersection of the Burlington and Rock Island Lines and Highway 287 near Mildred about 6:30 o'clock Wednesday afternoon.

L. C. Dillard, aged 38, of Teague, a B. and R. I. welding foreman, was pronounced dead upon arrival at the P. and S. Hospital in a Griffin ambulance. Mrs. David Burnett, 19, of Mildred, driver of the Ford V-8 coupe involved, also was brought to the hospital in the same ambulance. Her condition was regarded as satisfctory Thursday morning.

Other Railroadman Hurt.

G. W. Young, aged 26 years, helper of Dillard, also of Teague, suffered concussion and possible internal injuries. He was riding on the southbound motor car with Dillard. Lois June Wilcox, aged 11 years, of Mildred, a neighbor of Mrs. Burnett, was in the automobile. Young and the girl were brought to the hospital in a Corley ambulance. The young girl suffered face bruises and contussions, but no bones were broken.

Witnesses, according to Sheriff David Castles and Deputy R. E Jones, said that the motorcar struck the eastbound automobile and the car turned over, throwing the two occupants from the vehicle. The motorcar left the tracks and stopped about 20 feet from the intersection. The sheriff said the

CORSICANA CHAMBER OF COMMERCE BACKS 8-PROJECT PROGRAM

BOARD OF DIRECTORS ACCEPT SLATE FOR OFFICIAL SUPPORT

An eight-point program of projects to which the chamber of commerce will lend aid was accepted by the board of directors at a meeting Thursday morning.

The program, worked out by a steering committee of the organization, and presented to the directors by John R. Corley, president, included:

1. Constant work on farm-to-market road projects.

Wider Streets Favored

2. Aiding widening of West Seventh Ave., Second Ave., and Fifteenth St., and creation of a paved north-to-south street for a through route.

3. Publicizing and aiding in other ways soil conservation among Navarro County farmers.

4. Paving of Fourth and Fifth Aves. and Collin street in vicinity of Tiger Field, assisting the Corsicana Dads Club in the project.

Farm Market Studied

5. Study of the need in Corsicana of a farmer's market, a concentrated bartering place, which has

Truman Raps Taft's 'Boom-Bust' Policy; Hits Hungarian Coup

U.S. ACTION HINTED BY PRESIDENT AFTER STATE DEPT. STUDY

WASHINGTON, June 5—(AP)—President Truman today denounced the Communist coup in Hungary as an outrage and asserted that the United States does not intend to stand idly by in that situation.

He told a news conference that the state department right now is looking into the whole Hungarian affair.

A reporter said that it has been suggested that the United States is sometimes in the position of shaking its fist at Hungary and sometime. just shaking its finger. He inquired whether the United States intended to do something in the present situation and Mr. Truman replied that it does not intend to stand idly by.

Situation Said "Terrible"

In response to another inquiry he said that the Hungarian situation is terrible and reiterated that the state department is making a full investigatiin.

Diplomatic authorities are speculating whether the Hungarian coup may be followed by steps to set up a Balkan federation of Soviet-dominated states in Eastern and Southern Europe.

Until last week, Hungary's non-Communist government was the sole break in an otherwise solid lineup of Moscow-controlled nations extending from the Baltic to the Adriatic seas.

Tito Favors Federation

Marshal Tito of Yugoslav has been an outspoken advocate of a formal Balkan federation, and such a development now is being

New Savings Bond Sale Seen Chance For Investments

Corsicana and Navarro county residents with an eye on the future and what it will bring—old age with or without financial security—are interested in the Bond-A-Month plan of investing in U. S. Savings Bonds, Joe E. Butler, chairman of the county committee to sell $150,000 worth, said Thursday.

Corsicana banks report a number of inquiries regarding the systematic method of investing money every 30 days.

Banks Offer Service.

The simple plan gives the bank the right to draw against a client's account if the client so desires for the purchase price of a bond. The bond is then forwarded to the purchaser.

"Too much emphasis cannot be placed on the value of U. S. Savings bonds as an investment"

See BONDS, Page 3.

DWIGHT GRISWOLD

Truman Tells Many Views

By The Associated Press

Mr. Truman covered a wide range of foreign and domestic subjects during his news' conference today.

He began by naming Dwight Griswold, former Republican governor of Nebraska, as administrator of the Greek aid program, and Richard F. Allen, former Red Cross official, as field director of the $350,000,000 program of relief for seven European countires and China.

Then he read his statement on Senator Taft and went on to these other matters:

Argentina—The president said George Messersmith, American ambassador to Argentina, has completed his temporary mission in Buenos Aires and described the mission as successful The president said the United States is now on friendly terms with Argentina.

Domestic affairs:

1. Mr. Truman said the investigation of alleged vote frauds in Kansas City, Mo., should be carried through to its logical conclusion.

2. The president refused to give any advance tip on whit his action will be on the tax and labor bills.

SUPPORT OF TRUMAN BY WALLACE IN NEW CAMPAIGN DOUBTFUL

RALEIGH, N. C., June 5.—(AP)—Henry Wallace, asked at a press conference today if he would support President Truman for re-election, hesitated and said: "That depends on—I would say, 'no.'"

The former vice president is to make an address here tonight and the press conference this morning was held at the home of Josephus Daniels, publisher of the Raleigh News and Observer and a former cabinet member.

Wallace, who has been crusading vigorously against the "be firm with Russia" aspects of President Truman's foreign policy, had been asked earlier if he planned to lead in the forming of a third party, and he replied:

"I'm doing everything I can to make the Democratic party a liberal party. If the Democratic party becomes a war party, a party of reaction and depression, then I'll no longer be a Democrat."

Explaining his answer to the question about supporting President Truman for re-election, Wallace said that his support of the Democratic party in the 1948 election depended on whether it is a "war party" at that time.

Asked if he would support the Republican party, Wallace said: "I can't imagine myself campaigning for a Republican under any circumstances."

REPUBLICAN LEADER'S ECONOMIC IDEAS SAID DANGEROUS TO NATION

WASHINGTON, June 5.—(AP)—President Truman said today that the economic philosophy advocated by Senator Taft (R-Ohio) "follows the old idea of boom or bust."

"In the long run it would destroy both prosperity and profits," the president said in a statement read to his news conference.

Mr. Truman said Taft's arguments that high demand for goods "justifies or necessitates high prices is fallacious and dangerous."

"Defeatist Philosophy."

For his own part, the president said, "I utterly reject this defeatist economic philosophy," believing in "maintaining a full employment, full production econmy."

Mr. Truman's statement was directed at an assertion by Taft Tuesday that "apparently the president and the administration are abandoning talk of keeping prices down in favor of heavy spending abroad that will keep them up."

Taft declined any comment today.

Hawkes Defends Taft.

But Senator Hawkes (R-NJ) vigorously defended the positic taken by the Ohio senator.

"Of course, Taft's absolutely right," Hawkes told a reporter.

The president said he singled out the Ohio senator as spokesman for the economic philosophy he is attacking.

Taft Statement Hit.

In a lengthy prepared statement Mr. Truman took issue with Taft's recent statement that "apparently the president and the administration are abandoning talk of keeping prices down in favor of heavy spending abroad that will keep them up."

Reading his statement rapidly, the president said bluntly the administration does not advocate the Greek-Turkish aid program "for the purpose of bringing prices down," but to aid starving millions restore their economics and to bulwark them "against totalitarian aggression."

While foreign aid programs

See ECONOMICS, Page 3

'Merger' Phase Of Unification Bill Is Bitterly Assailed

WASHINGTON, June 5—(AP)—Senator Robertson (R-Wyo) said today the pending Army-Navy unification bill actually would merge the two services.

"It's merger legislation, pure and simple," the Wyoming lawmaker told a reporter. "Let's not fool ourselves about that."

Robertson is a member of the senate armed services committee which in his absence yesterday approved the bill by a 12 to 0 vote. He said he would have voted against the measure.

"Unification" Provided

It provides for unification of the military and naval forces under a secretary of national security. The bill says specifically that there shall be no merger, a provision upon which the navy insisted.

But Robertson contended that "nine lines of the bill are merger lines and it doesn't take a lawyer to figure it out."

He referred to a section which creates a "national security organization (which) shall consist of the department of the army, the department of the navy and the department of the air force x x."

Floor Fight Seen

Robertson's argument is that making the three departments part of an "organization" spells merger. He said he intends to fight the bill on that ground when it reaches the senate floor, probably next month.

Senator Bridges (R-NH), who voted for the bill in committee but reserved the right to offer amendments on the floor, told a repor-

HOUSE PASSES ARMY FUNDS BILL, ADDING $40 MILLION FOR AIR

NEW PLANE PURCHASES APPROVED, BUT REST OF SLASH IS UPHELD

WASHINGTON, June 5.—(AP)—The house passed and sent to senate today a $5,280,982,423 army supply bill after adding $40,000,000 to funds for airplane purcnases. The action was taken by unanimous voice vote.

As it left the house, the bill was $435,809,077, or 7.6 percent below the President's budget estimates for new appropriations for the war department during the fiscal yeaer beginning July 1.

Only Change Made.

The $40,000,000 increase in new plane funds was the only change made in the bill by the house. That sum was added to $396,000,000 which the house appropriations committee had recommended for that purpose.

The house had debated for hours an amendment by Rep. Mahon (D-Tex) to add the amount to the bill before discovery that the appropriations committee had erred in reporting that there was an additional $280,000,000 available for the air corps.

Rep. Engel (R-Mich), who had led the fight against the amendment yesterday, told the house today the proposed $396,000,000 for new planes included $280,000,000 in contract authorization for next year. Earlier, Engel had contended the $280,000,000 was in addition to the $396,000,000.

UNBALANCED BUDGET PLANNED FOR CITY; DEFICIT IS $100,934

ESTIMATED RECEIPTS SHORT OF EXPENSES; PUBLIC HEARING SET

The city commission of Corsicana offers to its citizens an unbalanced budget.

The scales that weigh income and outgo lack $100,934 of being aligned.

And it isn's the commission's fault, according to the document which is now on file at the city secretary's offcie for the inspection of anybody who cares to look at it.

Few ever do.

Receipts Too Small.

The 1947-48 budget calls for estimated disbursements of $452,334, compared with estimated receipts of $351,400.

The difference in reaching a common meeting place is putting necessary permanent improvement on the agenda—improvements that are long past due.

The budget, upon which public hearing will be held before the commission June 17, emerged after Mayor Hubert T. Braselton spent many hours at the city hall in conference with other commissioners, heads of departments, and interested private citizens.

The budget is based on the tax rate of $2.50 per $100 valuation, the limit the law allows. Total valuation of taxable property is $10,000,000.

Tax money will be divided as follows:

School	.85
General Fund	.25
Street Fund	.25
Library Fund	.05
Int. and Sinking	1.07
Total	2.50

It will be noted that the 25 cents allocated to the sewer fund last year has been eliminated, that money being diverted to the interest and sinking fund.

Whereas the sewer fund last year realized $23,873.57 from the tax money allocation, the 1947-48 receipts were placed in the budget at $600. This money was estimated as delinquent tax receipts for the year.

Contracting with this is a $35,000 proposed improvement program for the sanitary sewer system. This is one of the major items which is a "must" and helped put the budget out of balance.

The sewer fund now has $35,270.02 to its credit. With receipts estimated at the $600 figure, the budget sets the anticipated balance on hand on April 9, 1948, at $870.02.

Another improvement incorporated in the budget is a $30,000 water main extension program.

See CITY BUDGET, Page 6

LEGISLATURE KILLS TAXES, ARGUES ROADS

AUSTIN, June 5.—(AP)—Two last-gasp efforts to ram a tax bill through the 50th legislature in its last 24 hours were killed today in the house of representatives.

One of these attempts was in the form of an amendment to a $36,000,000 rural road bill, pinched off by invocation of the 24-hour rule, designed to eliminate controversial issues in the crowded closing moments of a session.

Theother came when the house refused by a voto of 58 to 57 to suspend the rules and take up the tax bill by Rep. Woodrow Bean of El Paso.

Rural Roads Issue.

It became apparent as the session moved closer to its final day that senators and representatives were trying to keep their records clear on the question of aid to rural roads.

As this situation stood at midday, the senate had passed and sent the house a bill making a $30,000,000 appropriation for farm-to-market roads. The house bill to the same effect, along with the tax rider Bean attempted to attach, was caught by the 24-hour rule.

However, the house has adopted resolutions, which if the senate concurs, would permit either measure to be considered under suspension of the 24 hour rule.

"Bad Faith" Charged.

Bean opposed the resolution to permit consideration of the house bill. He said there was "no doubt" the senate had "acted in bad faith and passed this bill over to us to keep their records clear"

"Why should we do the same thing?" the El Paso lawmaker asked.

This is what would happen to any rural road appropriation for as much as $30,000,000: It would have to go to the comptroller for certification. Since the session has virtually exhausted the treasury, it was anticipated the comptroller would say the money was not in hand or in sight. This would necessitate final passage of the bill by a four-fifths vote in both houses. Even then, it would face the possibility of a veto.

Jester is Silent.

Thus far Gov. Beauford H. Jester has not said what he would do with any measure so passed and which would put the state back on deficit financing. His office announced he would not hold his regular Thursday press conference because of the pressure of legislative business.

Approximately the same situation confronts several other house appropriations bill amended last night by the senate and returned to the house for concurrence.

These included the Dallas cancer and pellagra hospital, the Lamar college appropriation, the San Antonio medical college branch bill, and three museum bills.

Concurrence Favored.

Backers of these bills announced they would move for concurrence in the senate amendments, which they may do under the rules. Such concurrence, even at

See LEGISLATURE, Page 10

LIQUOR VOTE APPROVED

AUSTIN, June 5.—(AP)—The house today gave its final approval to a bill which will permit city and precinct local option in most of the state's counties, whether dry or wet.

Senate acceptance of the conferees' report is still needed for the bill to go to the governor.

EX-CONVICT CAPTURED AT FORT WORTH WITH WEATHERFORD BANK LOOT; CONFESSION SAID MADE

FORT WORTH, June 5.—(AP)—James Clifton Wheeler, 26, sandy-haired conditionally pardoned Texas convict, walked into the arms of three Fort Worth detectives at 7:30 a. m. today, his pockets crammed with $2,950 taken from the Citizens National Bank of Weatherford in a lone-wolf robbery shortly after noon yesterday.

Police Chief R. E. Dysart said Wheeler made a full confession.

Wheeler had broken through a cordon of federal, state and local officers "beating the bush" around Weatherford all last night.

Hitch-Hiking Reported.

He told officers that he had hitch-hiked to Fort Worth and had ridden in a taxicab to the home of his grandmother in far East Side, where City Detectives T. P. Hoot, C. C. Carmichael and D. S. Harris had been waiting all night.

"Something told me they knew who I was and were waiting for me—but I just walked on up anyway," he told Police Chief Dysart and Detectives A. C. Howerton and H. E. Chappell.

The arrest climaxed a closely-integrated search by FBI, State and local officers started shortly after Wheeler calmly walked into the bank and shoved a pistol and paper sack at Mrs. Vaudine Bullington, 22, teller, and told her he wanted all the money in her cash drawer.

Station Gives Tip.

Parker County Sheriff's deputies stopped by the Wyler filling station on highway 80 to give a description of the robbery car to attendants.

"James Wheeler was in here in a car like that earlier this morning," the officers were told.

The report was broadcast, and Fort Worth detectives noted that a similar car, a black 1940 Dodge coupe with a bent front door, had been stolen here earlier from Arthur L. Weir, Jr., an insurance man.

Reason Not Told.

Wheeler, a former carpenter, said he didn't know why he committed the robbery and that he had no plans what he would do with the money.

Asked by a Star-Telegram reporter whether he was sorry, he hesitated, smiled faintly and said, "I'm sorry I got caught."

The robbery car was abandoned about 16 miles from Weatherford. Wheeler told officers, after he saw airplanes and cars of officers combing the territory for him. He then fled on foot, losing his .32 pistol and hat in a flight across the the prairie after State Highway patrolmen "blew their horn."

Faced With Victims.

Wheeler was faced here in the detectives office by the bank teller, Mrs. Bullington, and R. B. Kearby and Will Barnett, who were in the bank at the time of the robbery.

"Have you ever seen this lady?" Chappel asked.

Wheeler grinned, and said "I was looking at her yesterday."

He is the father of two children, a girl 3 and a boy 6, by a former wife.

His pretty present wife came to the police station after the arrest to talk with her husband.

Leaves With Pistol.

Wheeler had been in Fort Worth since Saturday. He left home Tuesday with the pistol despite his wife's protest that "They'll revoke your parole" if officers found him with it.

Had he stayed clear of trouble three weeks longer, he would have escaped jurisdiction of the board of pardons and paroles. His conditional pardon Nov. 22, 1946, would have been up June 20, 1947. The board now must revoke the pardon.

FBI agents planned to file charges today in connection with the bank robbery.

APPROVAL GRANTED FIRST WORLD WAR II PEACE PACTS

MOVE TO DELAY ITALIAN AGREEMENT DEFEATED BY 67 TO 22 VOTE EARLIER

WASHINGTON, June 5—(AP)—The senate completed ratification of the first four of World War II's peace treaties today.

After ratifying the Italian treaty by a 79 to 10 vote, the senate then gave voice vote approval to treaties with Romania, Bulgaria and Hungary.

The action on the Hungarian treaty came only a few hours after President Truman at a news conference had denounced as outrageous a Communist coup in that country.

Delaying Move Beaten

Action on the Italian agreement came after rejection, 67 to 22, a proposal by Senator Fulbright (D-Ark) to delay action on all of the treaties until next January 25.

Great Britain already has ratified the four treaties and the United States thus became the second allied power to give its consent.

Russia and France still have to act, although France is technically in the process of ratification now.

The treaties become effective when approval has been completed by these four powers and formal notices of the acion have been filed.

Before the vote was taken, Senator McMahon (D-Conn) told his colleagues he is fearful that ratification will lay Italy open to Communist control and "Hungary's

See TREATIES, Page 3

SENATE TO PASS NEW LABOR LAW THURSDAY OR FRIDAY; VETO DUE

ACTION WATCHED AFTER HUGE MAJORITY GIVEN BILL IN HOUSE VOTE

WASHINGTON, June 5.—(AP)—Senators step up today for their turn at approving the compromise labor bill that rode a rock-crusher vote to passage in the house.

Senator Taft (R-Ohio) said there was a chance the senate ballot might go over until tomorrow. It depends, he said, on how many people want to speak how long.

Once the vote comes, the bill goes to the White House, where some key Democrats expect a veto.

Senate Passage sure

There is no doubt about senate passage. The only question is whether the vote will turn up a margin indicating that congress will veto a veto. That takes a two-to-one majority in both branches.

The house score late yesterday was better than four to one—320 to 79.

Taft, who heads the senate labor committee, stuck by a prediction that the bill will become law regardless of a veto. Senator Ball (R-Minn) said he also is confident the senate will reject a veto, if one comes.

Close Veto Vote Seen.

But Senator Pepper (D-Fla) told a reporter it will be "very close" on that issue. He said he looks for some Democrats to switch over to supporting President Truman "on the basis of a strong veto message,

See LABOR LAW, Page 6

CHILD SWEPT MILE BY WATERS—Three-year-old Gunther Boccius, son of a German scientist employed at Wright Field, is comforted by his mother, Mrs. Walter Boccius, who saved him from drowning after he had been swept down a rain-swollen ditch at Columbus, O. He was swept approximately a mile. Mrs. Boccius swam and waded through culverts and the drainage ditch to rescue her son. Two medical officers from Wright Field revived the boy with artificial respiration. (AP Wirephoto).

NEW FLOODS HIT 2 MIDWESTERN STATES

By The Associated Press

Parts of two midwestern states sustained heavy property damage from rivers today following cloudbursts and torrential rains.

Plattsmough, Neb., at the juncture of the Platte and Missouri rivers, was deluged with five inches of rain yesterday and a torrent of water five and one-half feet deep swept down the city streets.

Rutland Recovering

Five inches of rain also fell at Indianola, Ia., and Des Moinet had a three-inch rainfall. Residents of Iowa lowlands were warned to be prepared to move.

At Rutland, Vt., fears of an outbreak of disease abated today as tank trucks carrying drinking water rolled into this city digging out of the wreckage of a flash flood that knocked out all utilities.

Power and light were restored but gas and water supply systems were still out of commission—with a possibility that it may be several days before pipelines can be repaired.

Hundreds still homeless from the flood unleashed by a bursting power dam Tuesday night were being housed in the armory and fed by mobile kitchens.

Emergency water stations were set up with farmers from the surrounding countryside helping in serving well and spring water in a pail and bucket brigade.

The first major step in rehabilitation was taken last night when electric power, ruptured for 24 hours, reached the city through auxiliary feeder lines.

The utility services were wrecked when a nine foot wall of water, released by smashing of a power dam, poured into wide sections of the city Tuesday night. Torrential 24-hour rains preceded the break.

Authorities estimated it would be two or three weeks before normal gas service was restored, but city officials hoped to establish a water connection today for sanitary purposes.

Annual Meeting.

3-YEAR SUSPENDED SENTENCE FOR MAN IN FORGERY TRIAL

Odis Bell, 40, welder, formerly of Huston, life-long Navarro county resident, was found guilty on his plea of guilty to an indictment for forgery before a jury in the Thirteenth Judicial District court Tuesday morning and was given a three-year suspended sentence. Bell was indicted for the forging of a $100 check, drawn on the First National Bank of Corsicana, against the account of his son, V. R. Bell, payable to J. H. Gordon, in the sum of $100, June 4, 1946.

Chas. T. Banister, county attorney, told the jury that he was dismissing twenty-five similar indictments against Bell for checks drawn against the son's account.

Reared in the Rodney community south of Dawson, Bell said he had resided in Houston the past several years.

The defendant was warned about his plea by A. P. Mays, judge of the district court. He testified he did not know the whereabouts of his son against whom he drew the checks, but understood he had returned to the U. S. Army. Bell admitted he did not have permission to draw the checks against his son's account. He surrendered to the sheriff March 28, after he was indicted, and has been in the county jail here since tha ttime.

T. E. Granger, representative of the bonding company that replaced the money paid out by the First National Bank said that a note had been made covering the amount involved. Granger said the American Surety Company did not have any opposition to the defendant receiving a sucspended sentence. J. N. Garitty, active vice president of the First National Bank, said there was no oppositiotn to a suspended sentence from him or the bank.

Several former neighbors testified as to the good reputation the defendant enjoyed in the community in which he resided.

Doyle Pevehouse represented the defendant.

SUPERVISOR TO BE EMPLOYED IN CHARGE SCHOOL BUILDINGS

Authorization of the employing of a maintenance supervisor for the Corsicana public school system who will also have charge of the janitors of the various buildings was made at the June meeting of the Corsicana board of education Tuesday afternoon at the Senior High School Building.

The board also renewed the contract for the students of the IOOF Home for the next year, authorizing the payment of current claims, and voted to purchase a new curtain for the Senior High School Auditorium. Considerable discussion was held relative to needed improvements at the Jackson school, but additional time was taken in the matter.

All members of the board were present.

To Employ Supervisor

Upon motion of Doyle West, the board voted to employ a maintenance supervisor who will be in charge of the corps of janitors. A later motion by West, seconded by Dr. W. K. Logsdon, passed authorizing a committee compoesd of R. R. Brown, Supt. W. H. Norwood and B. W. Woolley to employ H. E. Smalling as the maintenance head The salary will be $285 per month on a 12 months basis beginning June 1, 1947. He will give his full time to the school reapirs and upkeep.

The agreement is also to include the furnishing of a pick-up for transportation of materials and supplies, to buy limited supplies and materials and to make available his own shop equipment and tools. The Corsicana school system's physical plant is valued at $1,500,000 and the members of the board felt that a supervisor could look after the various plants and by needed repairs, prevent the necessity of major replacements and repairs.

Heating Equipment

Doyle West, head of a committee to look into the fuel and heating question, said that burners and other necessary equipment for the proposed installing of fuel oil heating plants could not be secured at the present time. He submitted figures based on the changing of the present fuel oil and coal burning plants to natural gas that would effect a saving of some $1,700 per year, according to gas company figures. The board voted to delay any change in the present systems, and authorized the superintendent to purchase the coal supply for the four plants using that type of fuel. Supt. Norwood said he had been advised by a dealer in Dallas that coal could be delivered this summer or early fall at approximately the same figure of the past year. He was authorized to order the 250 tons of coal.

During the discussions relative to fuels, several members voiced a conviction that a change to gas as a fuel might be dangerous as compared to fuel oil burners. There are two plants using fuel oil and some using gas.

On motion of Mrs. F. A. Pierce, committee chairman in charge of the high school curtain committee, the board voted to purchase one offered by the Oklahoma City Scenic Company at the price of $2,837.55. The curtains are scheduled to be installed during the summer.

Prince, Harris and King, Dallas accountants, were re-employed to audit the school books and accounts at the same figure as last year—on a per diem basis. The audit last year cost slightly in excess of $400.

The board in the agreement with the IOOF Home re-ratified the arrangement whereby the students of the Home attend the city schools. The schools receive the per capita income from the State Board of Education, plus such amounts as may be secured from the State Rural Aid or Equalization Board. This is the same contract in operation for the past several years.

Jackson School

Several members of the board discussed the need for an architect or other person capable of writing plans and specifications for the rehabilitation of the Jackson School properties under discussion the past several months, but additional time was taken.

Discussions were held on the auditorium rental for recitals this year, and some suggested changes in the practice before the Spring of 1948 were mentioned. Decision will be made later.

An unofficial conference between the board of education and the new city administration was to be held Wednesday morning for the discussion of problems affecting the two branches of the municipality.

R. L. Wheelock said he had been urging the extension of the school district boundaries for ten years to take in additional areas It was intimated this subject might be informally discussed with the City Dads Wednesday along with other items.

Arrives in Japan

T-5 Bradford Wells of Corsicana has arrived overseas and has been assigned as a partsman with Headquarters Company of the I Corps in Kyoto, Japan.

Personnel of the company are housed in an ornate, former Japanese museum, near of Kyoto's many large shrines.

T-5 Wells entered the army on February 11, 1941 at Ft. Sam Houston. His parents reside in Corsicana.

Parents of Daughter

Mr. and Mrs. Ray Whiteside announce the birth of a daughter, Drusilla Ann, at the P. and S. Hospital May 29. The little miss weighed 7 pounds. Grandparents are Mr. and Mrs. Carl Whiteside and Mr. and Mrs. Roy Soape, all of Corsicana.

RECEIVES MEDAL—Tech. Sgt. James T. Foster, U. S. Army, stationed in Seoul, Korea, receives World War II Victory Medal in recent ceremonies The presentation was made by Major General A. D. Bruce, commanding general, Seventn Division. Sgt. Foster, son of Judge and Mrs. A. E. Foster, Corsicana, was captured in Italy and spent almost a year in German prison camps before his release. He was with the 36th Division that was federalized in 1940 after several years in the National Guard here. Sgt. Foster's wife and little daughter are en route to join him in Korea.

New Veterans Class.

A new Veteran's Agriculture class at Frost, the second one in that locality, has been formed and began functioning this week, R. L. Evans, coordinator of County Vocational schools, announced Tuesday.

There are 25 enrollees in the class, which will be headed by Charles Thompson as instructor. Thompson was formerly the instructor of the Kerens class, which has been taken over by G. C. Cook.

Both of the Frost classes are to have the use of the farm shop which was built and equipped for the first class.

Frank Cameron of Galveston is spending this week with his family here. Mrs. Cameron and two little daughters are with her parents, Judge and Mrs. A. E. Foster.

Jr. College Enrolls 110 In Summer School

Summer school relistrations at Navarro Junior college numbered 110, C. G. Strickland announced Tuesday. There were 63 veterans and 47 non-veterans reporting for registration Monday at the school.

Dean Strickland disclosed that a number of other students had signified their intention of enrolling. Classes met Tuesday and then dismissed until June 9 in order that the faculty and students could enjoy a short vacation.

Mrs. Lewis Foster and Mrs. Bernie Parker and children left Monday to spend the week with relatives in Buffalo and San Antonio.

Count Wright of Dallas was a week end visitor in the homes of Corsicana relatives.

★ SAFE
★ SIMPLE
★ STREAMLINED VISION

With no special wrenches or hoists of any kind, this 2-Row Corn Harvester can be mounted on your WC tractor in a half-hour or less.

Simply back the tractor over the husking mechanism. Fold up the built-in screw jacks. Attach the blower fans and streamlined gathering snouts and you're ready to go.

It's a simpler husker, with about one-fourth the usual grease fittings. That alone saves hours of service time and effort, giving you more time in the field. You can work in softer fields, too, where heavier huskers mire down.

This is the husker every family farm has looked forward to—a machine worth waiting for.

Because it's UNDER-MOUNTED

Compactly designed to fit beneath the tractor, the Corn Harvester has no dangerous moving parts within reach of the driver's seat.

Driver sits in the clear with unobstructed vision.

Gathering snouts are low and streamlined to slide under low-hanging ears.

TREATIES

CONTINUED FROM FIRST PAGE

fate." The government in Hungary has been taken over by Communists, a move that President Truman denounced today as outrageous.

Troops To Be Withdrawn

Mr. Truman said the United States will not stand idly by, adding that the state department is making a full investigation.

When the four treaties become finally effective, withdrawal of occupation troops from the countries involved will become necessary within 90 days, except that Russia may continue to keep sufficient troops to maintain her communication lines to Soviet-occupied areas of Germany and Austria.

The United States would withdraw its troops from Italy, a move that some senators contend would open the gateway to Communism there.

Vandenberg Urges Approval

While he also denounced the Communist coup in Hungary, Chairman Vandenberg (R-Mich) of the senate foreign relations committee urged approval of the treaty with that country as an encouragement to Democratic elements there. He said otherwise they would feel they had been entirely forsaken by the United States.

Under the terms of its treaty, Italy would be forced to begin payment within two years of reparations totaling $360,000,000 of which Russia would get $100,000,000. However, countries receiving reparations would have to furnish raw materials for the manufactured products they take.

place some strain upon the American economy, he said, the answer is to make price reductions at home "even more urgent."

"Fallacious and Dangerous."

Mr. Truman said:

"Senator Taft's argument that high demand justifies or necessitates high prices is fallacious and dangerous. It is based upon the idea that prices should seek as high a level as the traffic will bear, rather than the lowest level that is consistent with fair profits.

"That kind of practice is indefensible, and in the long run it would destroy both presperity and profits."

Mr. Truman said that Taft contended the only way to bring prices down was to reduce the demand for goods.

"Adjustment" Due.

Mr. Truman said:

"If the government were to abandon its vitally necessary loan and expendtures programs, if wages were reduced, if savings were exhausted, and if unemployment set in, then there would be less demand and prices would drop.

"Senator Taft would call this an adjustment. I would call it a tragic recession or depression. There is nothing novel and nothing worthy about getting a price collapse through reducing the demand. That is the typical road to a depression."

"Boom and Bust."

The president said Taft's economic philosophy "follows the old idea of boom and bust." For his own part, Mr. Truman added, "I utterly reject this defeatist economic philosophy," believing "in maintaining a full employment, full production economy."

His own interest in voluntary price reductions "is undiminished," Mr. Truman said, adding that "the drive for voluntary price reductions, while it has not gone far enough, has already yielded substantial results."

The president said peaceful wage adjustments in some major industries took place without price advances and that in recent months the trend toward extraordinary price increases "has been checked and moderate price declines have taken place."

Taft Singled Out.

The president laid great stress on his statement replying to statements attributed to Taft, chairman of the senate Republican policy committee.

A newsman wanted to know why he had singled out Taft, who has been frequently mentioned as a Republican presidential possibility.

Mr. Truman repdied that Taft has made a statement that won't hold water. He called Taft the spokesman for the economic philosophy that Mr. Truman is attacking.

Strain on Economy.

Mr. Truman said Taft has stated that loans to other countries for the purchase of American goods "increase the competition on home markets and thus force prices up."

Saying these programs place a strain on the American economy, particularly in the current inflationary situation, Mr. Truman declared:

"The fact that necessary foreign aid programs add to our economic problems at home makes it all the more important that we handle these domestic problems with vigor and common sense.

"Price reductions, wherever they are possible, are made even more urgent because of the additional strain which the world situation inescapably places upon our own economy."

car came to rest 36 feet from the tracks.

Witnesses See Crash.

A number of ambulances, wreckers and officers cars sped to the scene of the crash as soon as the alarm was received here.

There were at least three witnesses to the accident, officers said.

Constable Joe Allen and other officers also investigated the mishap.

Dillard's death is the first 1947 fatality in Navarro county involving a motor vehicle on a highway

The body of Dillard was prepared for burial at the Griffin Funeral Home and then transferred to the family home in Teague. Funeral services are slated at Teague sometime Friday.

Surviving are his wife, Mrs. Nellie Dillard, Teague; two daughters, Mrs. Marjorie French and Miss Leta Sue Dillard; two sons, Douglas Wainwright Dillard and Leonard Clay Dillard, Jr., all of Teague; parents, Mr. and Mrs. Robert Dillard, Itasca; a brother, Marvin Dillard, Fort Worth; six sisters, Mrs. Grace Underwood, Mrs. W. Woods, Itasca; Mrs. Georgia Garrett and Mrs. Odell Moore, both of Hillsboro; Mrs. Fred Pritchett, Fort Worth, and Mrs. D. C. Young, Tomball, and other relatives.

GOOD AND EVIL

People who greeted the Atomic bomb with sorrow and fear rather than jollification—and there are some here and there—are beginning to realize that the energy behind this powerful weapon may be turned into a great and continuing benefit to the human race. There is immense power in the atom, which scientists think can be utilized in ways never before attempted, making our human lot easier and hastening a time when "men shall be as gods."

There is, however, one grave doubt hanging over mankind. It is the doubt as to whether men will cooperate in quest for knowledge and power, seeking the advantage of the whole human race, or will continue doing what has been done so many times in similar cases. Will a few strive to keep knowledge and power for their own selfish and possibly evil purposes? We may expect to learn more about that in the next few years.

WORDS OF VALUE

Winston Churchill, for fifteen years an advocate of a United States of Europe as the first essential step toward world peace, is returning to the attack. "It is not true," he said in a recent London address, "that a united Europe would menace Russia." On the contrary, he believes that the USSR would gain much from a Europe relieved of the threat of war. He asks that France and Britain take the lead in restoring Germany's economy as a frist step, lest Europe remain as it is today "a charnal house, a rubble heap, a breeding ground for pestilence and hate."

This latest speech by the former prime minister came just as Life magazine and the New York Times announced their purchase of the five volumes of his war memoirs, totalling about a million words, for a price said to be a million dollars.

Churchill's utterances have been listened to with well-deserved attention for years, even by those who disagree with him. They are always worthy of that attention, for few living men have participated as actively as he in the turbulent world scenes of the last thirty years. At a dollar a word the world will read his colorful biography, and gain much of value therefrom.

FILIAL AFFECTION

President Truman's devotion to his 94-year-old mother, as shown by his frequent vists to her, has not been called a political gesture by even his worst enemies. It is a natural, honest procedure, entirely in keeping with his character.

But anyone who knows the American people will realize that no presidential act will be more applaued or more apt to bring the support of voters than this honest display of affection for his mother.

NEGLECTED BY CONGRESS

Is Congress facing the really important bills? Housing is important, yet nothing has been done about it. The St. Lawrence waterway is important, but skilled observers say there is no chance of this coming up for a vote. The proposal to establish a Missouri Valley authority on the order of the TVA is important, but it has not got out of committee. The universal draft and the bill to merge the army and navy commands are important, but Congress is doing nothing about these. Instead Congress has put through a constitutional amendment limiting the president to two terms and specifically exempting President Truman. Unless ex-president Hoover should be elected to a second term (he is over 70) and run for a third, this could not possibly have any effect until 1956. And the Senate spent weeks debating whether David Lilienthal is a Communist.

The neglected measures listed above should not necessarily be passed, in their present form or any other. They are, however, proposals on subjects of first-rate importance, whose discussion would educate Congress and the country. Among them are ideas which just now seem worthy of adoption. Congress should get busy.

Edgar A. Guest

(Copyright 1946, Edgar A. Guest.)

THE EVIL MEN DO

I know that every time I meet
A surley man in town,
In shop, cafe or on the street,
I, too begin to frown.
Should he give me a crusty word,
All self-control I lack;
The self-same sort of speech I've heard,
I promptly give him back.

But when I'm greeted with a smile
And pleasant, friendly speech,
I try to imitate the style
That cheerful people teach.
I'd have them find the traits in me
Their happy natures show.
Thus reputation comes to be
And good opinions grow.

So quickly I return in kind
The smile or frown I see.
I do not like some churlish mind
To make a churl of me.
And since we get as we bestow,
And give as we receive,
I'd rather, as I come and go,
Good will behind me leave.

UNPREDICTABLE FAME

Every now and then a startling "natural" cuts like a meteor ocrass the realm of art. Ann Mary Moses, 86, who until a few years ago lived in obscurity on an upstate New York farm, is one of those to whom fame has come suddenly, almost too late. About seven years ago, with no art training and indeed scarcely any formal schooling at all, the old lady started to paint. Her productions were mostly landscapes, memory pictures of childhood scenes. She exhibited them at state fairs, along with her jellies and her biggest pumpkins. They sold for fifty cents or a dollar. But then she was "discovered." A book was written about her and her work. It sold for $6, and is now being reissued. A New York gallery is putting on a "one woman" show of her work, each canvas of which now brings $1,000, easily, from a public that likes new "primitives."

Such accidental smiles from fate must be discouraging to the country's army of good, hard-working, well-taught artists. They may think back with regret over the pains they have taken to follow recognized techniques and wish ruefully that they, too, had tried crude primitives. Who knows but what there may even be an epidemic of such pictures, inspired by the acclaim and money now coming to Grandma Moses

WEARING SCENERY

It was bound to come. The hand-painted ties for men, which have become a pleasant part of the summer landscape, have inspired painted costumes for women. Dresses with a rustic scene and bathing-suits with a small sailboat are reported from Paris. On skirt shows a gay Paris street scene.

It is surprising that the college boys and girls did not think of this idea first. Pictorial art is but a short step from the coats which they sometimes affect, lettered with wonderful slogans.

CARS AS LUXURIES

What would American life be without cars for nearly every family? It looks as if the consumer is being priced out of owning a car, partly by car prices, partly by the prices of other necessities.

From 1936 to 1940 somewhat over 3,000,000 cars were sold annually. Only 150,000 of them cost over $1,200 per car. In 1940 only 52,500 cost more than $1,360. Does anyone know a car today whose list price is not considerably above $1,360?

Once upon a time the average family budget set aside 25 per cent of income for food. Recently the National Industrial Conference Board announced that in large cities families of moderate incomes must spend 42 per cent of their money for food. Clothing prices, according to the same authority, have gone up 58 per cent since August 1939.

People have to eat and wear clothes. They do not absolutely have to own cars. But it is going to make a big difference to the United States if car owning becomes a luxury attainable only by the rich.

BETTER LATE THAN NEVER

Because the weatherman has been fickle this year, tulip-time in Holland, Mich., is being extended two weeks to end the last instead of the middle of May. The town, settled 100 years ago this month by Netherlanders, has three and a half million tulips planted along eight miles of city streets. Every year its Tulip Festival attracts thousands of visitors. This time the festival was staged as usual. A mile of the main street was scrubbed after the fashion of Holland burghers and there were wooden shoe dances on the thoroughfares. But the tulips themselves, piqued by the persistent cold weather, have refused to open their buds. They are perverse flowers which reveal their dazzling colors only in bright sunshine.

Many tourists are driving over Michigan's Route 21 just the same, scheduling their trip a bit later than usual, still determined to see the city's display when it does come. It's hard to single out any one flower as mankind's favorite. But next to the rose, for centuries universally loved, the tulip probably wins the flower crown—certainly the crown for spring flowers.

FAIR LABOR PLANS

C. I. O. President Philip Murray and A. F. of L. Secretary-Treasurer George Meaney both have declared publicly that present labor bills in Congress aim to destroy th unions. Murray stated that such laws would "give every chiseling employer a chance to start wage-cutting," and Meany felt they would bring "a return to the low-wage scales of 60 years ago."

Thinking American citizens and responsible congressmen want no such results from new labor legislation. Collective bargaining has won for workers fundamental rights and opportunities that must not be lost. Unions are essential to industrial progress. But union leaders must realize that there is no place for dictatorship either from union labor or from employers in America.

It is probably natural that the unions in working for the well-being of their members followed a swing of the pendulum to a point where they acquired overbalance of power. The American people want the present Congress to correct this, and to bring union labor into equitable relation with management. Both sides need guarantees of fair play from each other and from government.

The leadership of the C. I. O. and of the A. F. and L. both would be smart to work toward this instead of being content with a mere name-calling.

KNOWING GEOGRAPHY

The Philippines are a Pacific country, not an Asiatic. Gen. Carlos P. Romulo, Philippine delegate to the United Nations, was suggested for the committee inquiring into the Palestine situation. As the committee was chosen on a geographical basis, Romulo was asked whether his country was Asiatic or Pacific. He chose the Pacific area as his basis.

Sometimes it is really important on which side of a boundary a country lies. President Roosevelt decided during the war that Iceland belonged to the Western hemisphere and not in the European zone, and should therefore be defended by the United States.

GOODBYE, OLD TIMES

In England, government planning for industry, and continuance of the national ownership of railroads, coal mines and the Bank of England is not the Labor party's program, but that of the Conservatives; who might be expected to look back longingly at the good old days of unrestricted private enterprise.

They may look back at them, and no one in Great Britain proposes trying to bring them back. Evidently the Labor party's legislation will not be undone.

EXIT THE PENDERGASTERS

Defeat is an argument to which even a politician yields. The remaining members of Tom Pendergast's one-time mechine in Kansas City have resigned from the county Democratic committee. Reason: the party was beaten last November, and it was made clear that it would lose this year unless the Pengergast followers got out. They got out. This is all to Kansas City's good, as well as to that of the local Democracy.

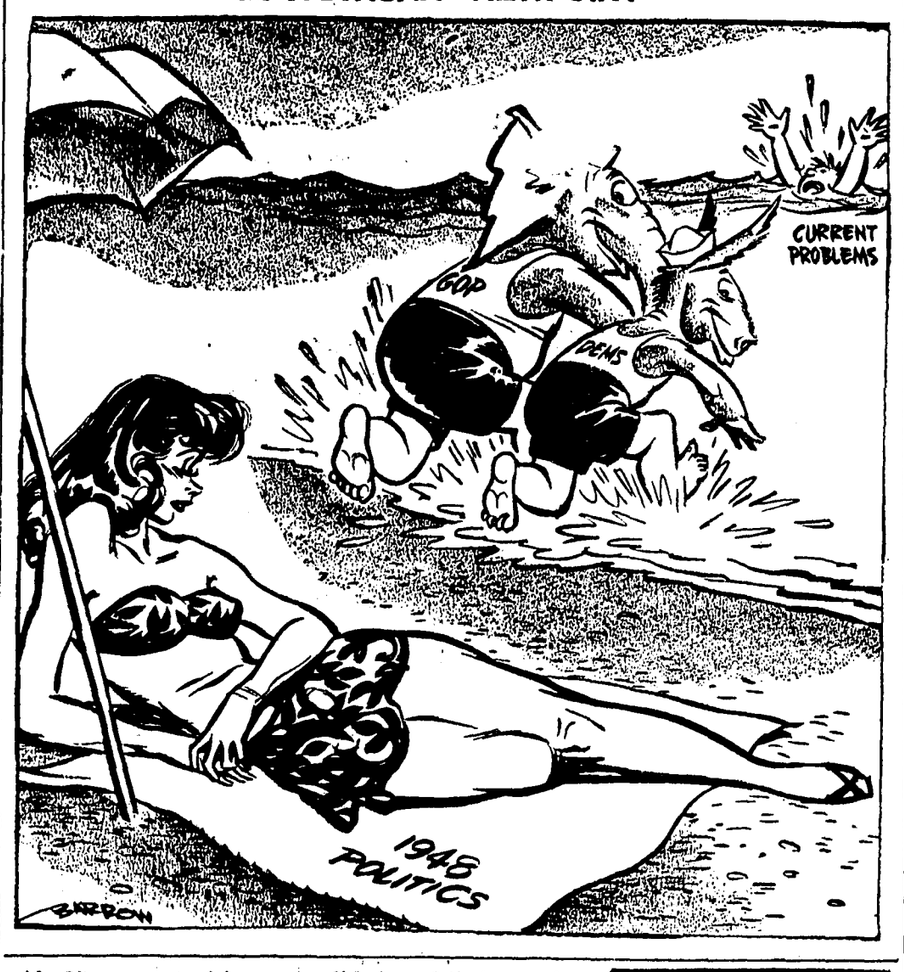

The cynical traveler noticed the sign on the store window. "Your Neighbor Traded With Us. Why Don't You?" Said the c. t., "That's why."

Congress finds one way to economize through its proposal to do away with government broadcasting to Europe. The whole broadcasting idea is that it is far better to combat Communism by words than by war. If economy at all odds is desired, vast sums could be saved by abolishing the army and navy; but Congress will hardly do that.

While Congress is legislating on other important subjects, it ought to do something about the weather.

Paul T. Flynn left on Wednesday for Lubbock where he has enrolled at summer school at Texas Technological College. He was accompanied by his wife.

HAL BOYLE'S COLUMN

BY HAL BOYLE

OKLAHOMA CITY, June 5.—(AP)—War - wealthy amateurs have started a new "wildcat boom" in Oklahoma's half-century old oil fields.

More than 600 wells are being drilled throughout the state by a new crop of investors strange to the oil business—war contractors, brewers, wine dealers, professional gamblers and movie stars—all drawn by the lure of discovering fresh pools of "black gold."

"There is more drilling now than at any other period and more money is being spent," said Claude Barrow, oil editor of the Daily Oklahoman here and one of the best-informed men in the industry.

"They are mostly people with big money looking for easy profits. They know little or nothing about oil, and they have had to hire experienced men at ungodly figures to supervise the work."

This wild orogy of free-spending has amazed old time operators. Most are sitting tight waiting for it to slow down.

"They expect to be here years after this spree is over," said Barrow. "The major companies can afford to sit back and buy into anything big that develops."

Bringing in a gusher no longer is a shoestring operation. Getting a well into production may cost anything from $5,000 to $1,000,000—and you can spend the money and end up with nothing but a hole in the ground.

"In two Oklahoma counties over a three-year period the wildcats brought in one producing well for each five dry holes," said Barrow. "The wildcat average throughout the United States is about one out of seven." Even then the producing well maye not turn out enough oil to pay for the cost of the other ventures.

Of Oklahoma's 44,425,000 acres some 37,000,000 are considered potential oil lands. But only 800,000 to 900,000 acres have been proved. Between 1897 and 1942 some 160,516 wells were dug. Only 52,500 were still producing in 1942.

The famous board walk at Atlantic City, N. J., is 60 feet wide and five miles long.

Martin Named Director

Recommended by Corley, Lowry Martin, Daily Sun publisher, was named a director to succeed R. R. Rubottom Jr., resigned.

Financial report for the month showed a cash balance May 31 of $2,726.54. Expenditures during the month were $491.37. Dues deposited during the month were $1164.71.

The directors spent more than an hour discussing a citywide rat control program after directors were informed by Corley that the original plan adopted a month ago whereby the chamber would act as a clearing house only for the campaign had encountered difficulties.

Anti-Rat Drive Discussed

The chamber program, originally sought by Miss Loreta Gaillard, city sanitarian, was to sponsor the drive, take in the money and pay the exterminator and other expenses out of moneys collected.

R. D. Stack, local exterminator, immediately protested that the chamber was in competition with him.

Stack, Dr. Will Miller, acting director of the Corsicana-Navarro Health Unit, R. E. Aday, representative of the U. S. Fish and Wildlife commission, attended the meeting Thursday.

Dr. Miller, Stack and Aday all told the group a rat program was of little value unless the whole city was included.

Committee to Be Named

The directors, after Joe E. Butler made the motion, voted that Corley name a committee to contact merchants and others to raise the $3,000 annual expense of a constant, overall drive.

The directors were informed by Herman Brown, manager, that a membership campaign is about to be launched, the plans for which will be announced within the next few days.

He also reported work being done by the industrial committee regarding locating a nationally known candy manufacturing plant and an olive, pickle and other brine products packing unit.

BONDS

CONTINUED FROM FIRST PAGE

Butler said in connection with the June-July drive.

Three points were stressed: The bonds are backed by the full credit of the nation the return is stipulated and guaranteed without risk of market fluctuations, the widespread ownership of savings bonds creates financial reserves at a time when the national income is the highes tin history, thus building a backlog of purchasing power when the buyers market has returned in full.

"Urban dwellers and farmers alike need financial security," Butler said. "The Bond-a-Month plan offers an ideal way for the farmer, the rancher, the professional people and small business men to invest regularly and build a reserve for emergencies for future use or for retirement."

HUNGARY

CONTINUED FROM FIRST PAGE

viewed here as a definite possibility.

Like the Hungarian overturn, it would be regarded as (1), a curt Moscow rejoinder to the American program of aid to Greece and Turkey and (2) a move to solidify the Soviet bloc before final ratification of the satellite peace treaties forces withdrawal of Red army occupation forces.

Diplomats also consider as a possible next Russian step in Eastern Europe some action to perpetuate the Communist-domination of Czechoslovakia. A leftist bloc which included Communists won last year's elections there, but a more recent rightist trend has suggested that the Communists might slip back to second or third place in the next balloting.

Formal Protest Studied

Meanwhile, a formal United States protest and further economic slaps remained under consideration at the state department to express this government's concern over the Communist seizure of control in Hungary.

That country's minister to Washington, Aladar Szegedy-Maszak, used undiplomatic terms to denounce "the Soviets and their agents" in announcing yesterday that he and most of his staff will not "recognize" the new Budapest regime.

Both the minister and 23-year-old Francis Nagy, Jr., legation attache and son of the ousted prime minister, defied an order to return to Budapest for "consultation."

Statement Denounces Reds

Szegedy-Maszak said in a statement that the Communists, with Russian backing, were applying the charge of conspiracy for the "practical eradication of every one who stood in their way."

"This process cannot be stopped by the internal Democratic forces in Hungary," he added, "for Hungary today is occupied by the Soviet army and controlled by its agents who are making every effort to consolidate their grip over the country in order to remain in power at the time of the Russian evacuation of the peace treaties."

By their action yesterday Szegedy-Maszak and his adherents joined the group of voluntary exiles from countries under Soviet domination including the ministers of Latvia, Lithaunia and Estonia. These Baltic states, swallowed by Soviet Russia before American entry into World War II, are still given U. S. diplomatic recognition and maintain legations in Washington.

LABOR LAW

CONTINUED FROM FIRST PAGE

the logic of which would be persuasive."

At yesterday's nose counting, Democrats backed the compromise 103 to 66. Republicans 217 to 12. The one American-Laborite, Rep. Marcantanio of New York, was against the bill.

The final 320 to 79 tally compares with the 308-to-107 vote by which the house passed its own labor bill in mid-April.

Provisions Outlined.

The compromise, blending together the original house bill and another approved by the senate, 68 to 24, among other things would:

Ban some kinds of strikes entirely and give the government authority to use court orders to stop "national paralysis" strikes, as in the coal or steel industry, during 80 days of mediation.

Forbid the closed shop, which compels an employer to hire only union workers.

Allow law suits against unions for breaking contracts.

Bar unions from keeping nonstrikers off the job by mass or violent picketing.

Communists Slapped.

Deny collective bargaining rights to unions if any official can "reasonably be regarded" as a Communist or sympathizer.

The last minutes of debate pitted Republican Leader Halleck of Indiana against Democratic Leader Rayburn of Texas.

The people, Halleck said, are relying on congress for some "fair, decent, reasonable, but courageous legislation.

"That," he said, "is exactly what we have here."

Rayburn called the bill unfair and "clear as mud". Under it, he said:

"Our friend John L. Lewis, can declare every mine in the United States unsafe."

TSCW HONOR STUDENT—Highest college honors at Texas State College for Women went to Ella Margaret Traffe, Foreman, Ark., on graduation day for her outstanding artistic achievements while on the campus. Miss Traffe was awarded the Pauline Bishop Leman Memorial Award for her original piano compositions and participation in Texas and Arkansas musical events.

Grasshopper Outbreak Reported In County

Severe outbreaks of grasshoppers are now prevalent in scattered areas of the county, according to H. C. Robinson, county agent.

These insects, hatched out in pasture lands, turn rows and along ditch banks, are now migrating in larger numbers to the growing and tender field crops, the agent said.

"Not many hoppers have yet reached the flying stage, and can be effectively controlled by the proper use of poison bran mash," Robinson advised.

The Bureau of Entomology is again furnishing poison and wheat bran for the preparation of the bait, which is distributed through community mixing stations.

These stations, the agent revealed, are located at Richland, Pursley, Dawson, Rice, and at the A. G. Smith Cotton Gin in Corsicana.

"Farmers troubled with grasshoppers should visit one of these stations and secure a supply of poison bran mash for immediate application. One sack, properly put out now will do as much as a dozen later on," he declared.

SICK AND CONVALESCENT

P. and S. Hospital.

Mrs. Deen Allen gave birth to a son Thursday.

Neal Roberts, 7 year old son of Mrs. Martha Roberts, Rice, was treated for a fractured left arm sustained when he fell out of a tree at Blooming Grove while watching a ball game Wednesday night.

Mrs. Lois Maddox, Dawson, is a patient.

J. T. Newsom, who suffered a heart attack while downtown Tuesday and was carried home in an ambulance, is resting well and his condition is improving.

Visited Brother.

Mr. and Mrs. George Labban and son, Harvey, have returned from a visit to Mrs. Labban's brother, Mike Attra, of Bryan.

Attra is co-owner of the Fin and Feather Club, a new club opened at the old Bryan country club lake, according to Labban. It is located between Bryan and College Station.

CITY BUDGET

CONTINUED FROM FIRST PAGE

Another is proposed street improvements of $81,400.

The city officials estimated receipts as follows:

General Fund	$ 96,640
Street Fund	82,060
Water Fund	188,300
Cemetery Fund	13,800
Sewer Fund	600
Parking Meters	20,000

Disbursements were distributed as follows:

General Fund	$163,562
Street Fund	126,875
Water Fund	107,222
Cemetery Fund	15,715
Sewer Fund	35,000
Parking Meters	3,960

The general fund disbursement account was further broken down into the following units:

Administrative	$46,160
Sanitary	44,400
Fire	29,325
Police	34,976
Park	5,601
Street Lights	3,100

For purposes of comparison on the current high cost of a municipal government that is caught in a postwar "work that must be done" program, two figures are submitted.

Actual expenditures in the street department during 1946-47 were $46,330.78. In the water department the expenses totaled $55,237.31.

From where I sit ... by Joe Marsh

How to Go to Sleep

We were sitting around Bill Webster's parlor Friday evening and the talk turned to the best way of overcoming sleeplessness...like breathing real slow and deep, imagining that you weigh a ton, or simply throwing away the pillow.

The consensus favored counting sheep. But right away was the question: what *kind* of sheep? There were some votes for countin' Merinos, Shropshires, Oxfords and Dorsets. Ed Mapes said he had best luck counting crossbreeds.

Finally, Bert Childers spoke up with his formula: A light snack and a mellow glass of beer at bedtime. Sort of puts you in the mood for quiet thoughts and peace of mind. Lets you relax . . . and "ho hum," off to pleasant dreams!

From where I sit, there's nothing like a temperate glass of beer to smooth away the creases of the day, relax a body, and pave the way for a good night's sleep. Try it, and see if I'm not right.

Joe Marsh

Rites Held Thursday For Oscar Pinales

Funeral services for Oscar Pinales, aged 37 years, fatally injured in a truck mishap in Fort Worth Monday, were held Thursday morning at 9 o'clock from the Church of the Immaculate Conception. Interment was in the Catholic cemetery. The rites were conducted by the Very Rev. Monsignor V. Graffeo.

Surviving are the parents, Mr. and Mrs. Sebastian Pinales Rice, and four brothers.

Corley Funeral Home directed.

SUGGESTIONS ON PREVENTION, CONTROL OF POLIO DURING HOT SEASON GIVEN BY HEALTH CHIEF

AUSTIN, June 5.—(Spl.)—Dr. Geo. W. Cox, state health officer, has issued the following statements and suggestions concerning the control and prevention of poliomyelitis which is now occurring in certain sections of the state.

At one time is was generally believed that this infection was transmitted primarily by discharges from the respiratory tract. It is now believed that poliomyelitis may be another of the several gastrointestinal infections. Therefore, control measures must include clean-up campaigns and improvements in sanitation.

Pest Destruction Urged.

Stringent efforts should be made to eliminate house flies, mosquitos and rodents to destroy their breeding places. Every effort should be made to institute approved garbage collection systems, and secure safe water supplies. Where adequate municipal sewage disposal systems are not in operation, it is necessary to install and maintain sanitary septic tanks and outdoor privies.

All swimming pools should maintain those standards approved by the Texas state department of health. This includes maintenance of proper chlorine level. Where such standards are not maintained, those pools should be closed to the public.

All raw foods and vegetables should be washed thoroughly before use and protected from filth and insects. All food handling establishments should adhere strictly to the state law concerning the sterilization of dishes and utensils. Those restaurants with insufficient personnel to maintain approved sanitation, should close one or two hours a day so that employes can assist in maintaining cleanliness and high sanitation standards.

All Advice Important.

Approved milk supplies, rodent control measures, high sanitation standards and strict personal hygiene are all important. Polio cases should be quarantined for 14 days and excreta from cases and contacts should be handled and disinfected with the same scrupulous care as in typhoid fever or bacillary dysentery.

Over-exertion in children should be avoided. Children should not visit homes where there is illness. It is advisable to reduce to a minimum all human contacts, especially in children during an outbreak of this disease. It is not advocated that school, churches and theaters be closed.

Early symptoms of infantile paralysis are headache, fever, vomiting, drowsiness, followed by stiffness in the neck and back. When suspicious symptoms appear, a physician should be called immediately.

Junior High Graduates Leave Gift For School

The 1947 graduating class of Junior High School has left $64.80 with the school for the purpose of purchasing a trophy case, H. C. Allen, principal, has revealed.

It has been the custom of department classes to provide certain needed things for the school in years past and this year's class decided upon the trophy case.

Texans Given Awards

ANNAPOLIS, Md., June 5.—(AP)—Richard W. Bass Jr., Denton, was awarded the superintendent's leadership commendation at the brigade parade of the United States Naval Academy.

William H. Flynn Jr., Harlingen, was given the class of 1928 watch for junior varsity football.

NEGRO ORPHANAGE IS OFFERED CHURCH BY COLEMANS; REJECTED

BROWNSVILLE, June 5.—(AP)—Mathes H. Coleman and his wife, Ruth, negor operators of the Santa Rose orphanage, have deeded the institution to the Catholic church, but the Most Rev. E. B. Ledvina, bishop of Corpus Christi, says that the gift will be turned down.

The Colemans, convicted in federal court here last week on a mail fraud indictment, transferred the property to Bishop Ledvina in a deed filed with the Cameron county clerk here.

Done "Without Consent."

"They had no right to do that" Bishop Ledvina said in Corpus Christi, when informed of the transfer.

"I am not obliged to accept the property. This was done without my knowledge or consent."

The bishop said he had refused to take over operation of the home a year ago because the transaction was "too involved."

He stated that he woud instruct church representatives at Brownsville to refuse acceptance.

Attorney Also Favored.

The Colemans also filed a deed in trust in favor of Fred B. Wagner, trustee for Ronald Smallwood, Harlingen, who was a member of defense counsel during the couple's trial. The deed involves nine tracts of land and stipulates that the land was mortgaged as collateral for two promissory notes due June 2, 1948, and June 2, 1949, made to Smallwood in amounts of $6,000 each for legal services.

A deed of trust also was filed by the Colemans in favor of Jack K. Ayers, trustee for former Gov. James V. Allred, chief defense counsel. The deed involved 60 acres of land as collateral for a $4,500 note, due Sept. 5, 1947, with 6 percent interest.

Rev. Decherd To Be Methodist Speaker

The Rev. Douglas Decherd will fill the pulpit at the 10:50 a.m. hour at the First Methodist church Sunday, during the absence of the pastor who is in Fort Worth attending the annual conference. The choir will sing special music for this service. Sunday school, all departments, at 9:45 a.m. The vacation church school also opens Sunday. There will be no night church service.

Hot Radiators

A hot radiator keeps your motor from performing as it should. We clean out all makes and models to make them run cool. If it's the radiator we can fix it.

EMPLOYMENT PICTURE IN CITY, COUNTY IS WORSE, TUCC REVEALS

SERIOUS SLUMP SEEN FROM LAST MONTH IN DARKENING SITUATION

The Navarro County labor picture took on a "grim appearance" during May and shows signs of still further set-backs within the next three months, according to W. B. Reedy, manager of the Corsicana office of the Texas Unemployment Compensation Commission.

A monthly compilation of cold figures culminated in an overall presentation that was anything but pretty.

Bright Trend Reversed

Activities during last month sharply reversed the trend set in March and April when employment gains were noted "on every hand," Reedy said.

Reedy, expert labor analysist blamed three things for the current gloomy labor pattern. They are:

1. Temporary shutdown of the Corsicana Cotton Mills affecting some 500 workers.

Agriculture Blamed

2. Failure of agriculture to bring about the customary seasonal employment usually noted at this time of the year, because of excessive rains and otherwise backward season for farming;

3. A general recession in wholesale and retrail trades, coupled with periodic and spasmodic lulls in the building and construction trades because of material shortages. The two together brought about a retrenchment in the whole labor pattern.

The end of May saw the claimant load for state unemployment benefits practically doubled that at the end of April.

Applications Mount

Applications for work on file at the Corsicana office as of May 31 totaled 1,665 ,including 836 veterans of World War II.

This heavy load mounted in spite of activity in job service. During the month 253 claimants for unemployed benefits, including 131 veterans drawing readjustment allowances, dropped their claims, either by exhausting their benefits, being placed in employment by the service, or finding jobs through their own efforts.

During the month the local TUCC placed 162 people in jobs. Fifty-nine veterans were included in the total.

More Jobs Needed

"Total applications for work are expected to increase materially during th next 30 days as students in colleges and schools return to their homes to re-enter the labor market for the summer. This will be supplemented by high school graduates who will enter the labor market for the first time," Reedy said.

The chilling words, "recession" and "depression," are beginning to apepar with regularity in the Fourth Ave. unemployment service.

"The much discussed 'recession,' which is being looked upon lightly in some quarters, while being definitely emphasized in others, is peculiarly commented upon by many of those seeking jobs," Reedy said.

"Depression Is On"

"To a man who is out of a job and trying to meet the high living costs, a definite depression is on; while the man who is steadily employed, yet unable to meet his living costs, wonders what is wrong with the Amrican economy.

"In many instances the local office finds the employed individual competing with the open labor market in an effort to find work at higher wages, and thus presents a confused picture where actual unemployment is considered."

Reedy said that, except for a few specialized crafts and trades the application files at the present time offer a broad field of skills for an employer to select from. At no time in the past, Reedy said, has there been such a wide range of skills available. He urged every employer having vacancies in their establishments to list their openings with the loca loffice.

Airport Property Is Being Investigated

Mayor Hubert T. Brasselton said Thursday that apparently the city did not get what officials thought it was getting when it took over the municipal airport tract, and that the War Assets Administration still has title to part of the electrical, gas and water distribution systems at the field.

Mayor Braselton, accompanied by Julius Jacobs, city attorney, were in Grand Prairie Wednesday for conferences with government officials on an advertisement for bids on the holdings at the field.

He said he would go to Fort Worth again Friday for another conference.

The junior college unit is the one affected by the misunderstanding of ownership, the housing project for veterans being cleared.

Mayor Braselton said he hoped to have the mixup worked out by the last of the week.

Assistant Secretary.

Miss Francine Nicholson of Barry has been added to the office staff of the County Vocational Schools as assistant secretary, R. L. Evans, coördinator of the schools, announced Tuesday.

Miss Nicholson was formerly assistant secretary in the office of the county school superintendent. She was a member of the first graduating class at Navarro Junior College several days ago. She assumed her new duties on Monday, June 2.

PROPOSED SALARY INCREASE DISCUSSED BY COMMISSIONERS

Navarro county commissioners Tuesday were rather lukewarm about pending legislation that might allow them a 15 percent increase in salary.

The commissioners pointed out that even if such a raise was allowed, the present financial status of this county would not allow it.

The House in Austin Monday accepted a conference adjustment to a senate bill to benefit employees in counties in certain population ranges, according to press dispatches.

Under the bill, county commissioners were given permission to raise salaries 15 per cent above that of December, 1946, in counties of 20,000 to 60,000 population. If the commissioners raise their salaries, however, they would be required to raise others proportionately.

Neither the salary or general funds of Navarro county could stand that raise, members of the court opined, even if such a move was undertaken, and there is not sufficient revenue in sight to care for such action, it was indicated.

"What good is there allowing a raise when there's nothing to pay it with?" Fred M. Copeland, commissioner from Pursley, observed, as he and the other commissioners returned to their unpleasant task of selecting properties on the tax roles to be subject of hearings during the remainder of the month as to whether or not the renditions are upped from those set out when the owners rendered them for taxation purposes.

World 'Citizenship' Stressed At Junior College Graduation

Dr. C. C. Colvert, airminded state junior college consultant, told the 13 graduates in the first class at Navarro Junior college that rapid gains in science has caused a "world citizenship."

Principal commencement speaker Monday night in the college auditorium, the University of Texas junior college education professor said the young people are going to have to solve the problem of world citizenship.

Tracing the shortening of travel time to any point on the globe, the speaker said that world citizenship was following the international citizenship the nation felt after the first war.

"Like It or Not"

"These things are making us become world citizens whether we like it or not."

Going back just a few short years to the lost conflict in which the graduates had participated, he stated that the youth of today can take responsibility, can do difficult things, and can assume the burden of world citizenship.

"In World War Two the American solder was an ambassador. Since World War Two there has been a new type of citizenship—world citizenship."

"Jet Jalopies" Seen

The speaker prophesied "jet jalopies" in the next generation with a new emphasis on travel and lauded the county of Navarro for having a modern school in which students live in an airport.

"Some achieve citizenship while others have it forced upon them," he said and added that Navarro countians had achieved citizenship bi virtue of building the college, simultaneously urging a ten cent tax rate increase to meet college expenses.

Beginning with the settlement of America, the speaker traced the history behind citizenship from the tiny settlement to its present scope, citing the thremendous gains in travel and communications as the vital factor.

Waller Presented Diplomas

Presentation of diplomas was made by Ray L. Waller, president of the college, who was introduced to each graduate by C. G. Strickland, dean.

"It's a genuine please," Waller said, "to us to present to this the first class their diplomas. We had a short time to work with them and we see in them leaders of the future."

The Wodmen of The World, Camp 5, Corsicana, medal went to Robert C. Jackson, Jr., for attaining the highest grade in history during the year. The president also drew attention to Charles A. Skelton, who was the first student to enroll at Navarro.

Speaker College Leader

Dean Strickland introduced the main speaker as a man who has had much to do with the junior college movement in the state, which the dean stated was accelerating rapidly.

"It is fitting that we should have as our speaker a man who is the leader in the junior college movement in the state."

In connection with the local college the principal speaker lauded Navarro county, the board of regents, and the faculty for the splendid work of the college.

"It's hard to realize you didn't even have a tax voted for a school a year ago. And, too, it's remarkable to have a class of 13."

Dr. Grey Brings Invocation

The invocation was brought by Dr. Ernest Grey, rabbi of Temple Beth El and faculty member of the college. Miss Jimmie Ruth Thompson played "Rhapsody in G Minor" by Brahms as a musical feature of the program.

Processional music was "Coronation March" by Meyerbeer and the recessional number was "March of the Priests" by Mendelssohn, played by Miss Margaret Pannill, a faculty member.

On the speaker's stand were Dr. C. C. Colvert, President Ray L. Waller, Dean C. G. Strickland, Registrar Gaston T. Gooch, O. L. Albritton, chairman of the board of regents, and Dr. Ernest Grey.

Graduates of the Class of 1947 were William Edward Brown, Dwayne Bryson, Mary Ella Franks, Robert C. Jackson, Jr., Alfred Lee Lord, Francine Nicholson, Eleanor Ann Norton, H. R. Ponder, Jr., Betty Ann Rawlinson, Charles Henry Reed, Charles A. Skelton, Jimmie Ruth Thompson, and Sam B. Werner, Jr.

MISS BILLIE JEAN RHODES AND ALVIS TUCKER WED ON SUNDAY AFTERNOON AT HOME OF BRIDE

The marriage of Miss Billie Jean Rhodes, daughter of Mr. and Mrs. U. W. Rhodes, to Alvis Tucker, son of Mr. and Mrs. Dan Tucker, was solemnized on Sunday afternoon at 3 o'clock at the home of the bride's parents with the Rev. Jack Goff reading the double ring ceremony.

Vows were pledged before an improvised altar of white gladioli in floor baskets, silhouetted against a background of palms. Calla lillies and gladioli adorned the piano, and other floral arrangements were at vantage points about the home.

The wedding music was provided by Mrs. McCrory, pianist, who played "I Love You Truly" and "Because" and other nuptial selections.

The bride was attired in poudre blue with white accessories and wore a corsage of white gladioli and gardenias. She wore the traditional "something old, something new, etc."

Miss Barbara Tucker, maid of honor, wore a white eyelet embroidery frock with white accessories and a corsage of white carnations tied with red ribbon. Runnell Tucker was his brother's best man.

Reception Followed Ceremony

An informal reception honoring the couple followed the ceremony with Mrs. Runnel Tucker and Miss Mary Edith Milburn presiding at the lace-laid table which was centereed with white gladioli and callas and held a two-tiered wedding cake.

When Mr. and Mrs. Tucker left for a wedding trip to points in Colorado, Mrs. Tucker was wearing a white linen dressmaker suit with pink sheer blouse, matching accessories and a purple orchid. They will make their home at 1441 West 3rd Avenue.

The bride was graduated from Corsicana High School in 1944. The bridegroom served twenty-five months in the U. S. Navy, twenty of which were spent in the South Pacific.

MRS. ALVIS TUCKER

Rites Held Wednesday For John W. Worthy

Funeral services for John W. Worthy, 52, who died here Monday afternoon, were held at Byrd, Ellis county, Wednesday afternoon at 3 o'clock. He was born at Avalon, and moved to Byrd at age of seven.

Surviving are two sons, J. W. Worthy, Dallas, and Herman Worthy, Austin; parents, Mr. and Mrs. N. W. Worthy, Corsicana; a sister, two brothers and four grandchildren.

Corley Funeral Home directed.

Rites At Taylor

Funeral services were held Tuesday at Taylor for Mrs. Forest Adherholt who died at her home in San Antonio.

Surviving are two daughters, a son, five sisters, three brothers and other relatives. One brother, W. T. Laudan, resides in Corsicana.

CITY OWNERSHIP OF UTILITY EQUIPMENT WILL BE DISCUSSED

Wheather the city of Corsicana does or does not own the gas, water and electrical distribution systems at municipal airport will be learned Wednesday when city officiaals meet with War Assets Administration officials at Grand Prairie.

Mayor Hubert T. Braselton, City Attorney Julius C. Jacobs and City Engineer J. Mack Jones were to go to Grand Prairie at the invitation of government agency.

Jacobs said he had been informed the government did not transfer title to the systems in their entirety to the city when the airport was acquired.

Former Mayor John C. Calhoun was asked to accompany the officials to the meeting.

COURTHOUSE OFFICES START CLOSING AT NOON ON SATURDAY

A number of the offices and departments, except the law enforcement agencies, will begin June 7 closing at noon Saturdays. This gives employees a half-holiday each week.

Those reported to have agreed to begin this prtactice are J. Vernon Harwell, county clerk· J. C. (Rusty) Gaston, district clerk; J. C. Watson, county superintendent: Arnold A. Armstrong, assessor and collector of taxes, and E. Y. Cunningham, county auditor.

The two justices of the peace havc been alternating Saturday afternoons and Sundays for the part several years and this practice is expected to continue.

Auditor Cunningham has been allowing his assistants to take Saturday afternoons while he remained at the office until 2 p. m. when the banks close. This practice was observed by Cunningham in order that he might register any vouchers brought in for approval by teachers in the Navarro county schools. With the closing of the schools, this extra Saturday afternoon time will not be required either of the auditor's or county superinttndent's offices.

Only a skeleton crew has been maintained by Harwell and Armstrong on Saturday afternoons with few visitors. Gaston has allowed his deputy Saturday afternoons off, returning when court duties required his presence.

Frost girls who will receive bachelors' degrees at Texas State College for Women are Misses Patricia Doyle and June Omberg.

Richard Sanders of Frost is a patient at P. and S. Hospital.

To Property Owners In Navarro County, Texas:

Notice is hereby given that the commissioners court of Navarro county will be in session as a board of equalization on June 11, 12, 17, 18, 19 and 20. Anyone with property values to adjust will do so on these dates. Respt.,

L. L. POWELL, County Judge.

COUNTY DELEGATIONS SEEK HIGHWAY WORK AT COMMISSION MEET

Navarro county delegations appeared before the Texas highway commission Monday in the interest of various highway projects.

One delegation sought the widening of the main street in Blooming Grove, from curb to curb, for seven blocks, extending from the business district south, a part of the Silver City-Blooming Grove farm-to-market road.

J. F. (Speedy) Adams and others from Corsicana also appeared in the interest of the widening of Seventh avenue, a part of Highway 31. Adams, Chamber of Commerce road leader, stated Tuesday the state agreed to widen Seventh avnue.

Adams also revealed his group interested the commission in looking into the proposition of providing a farm-to-market road extending from Corsicana to Chatfield. Whether the road would extend from Highway 75 north of Corsicana or north from Powell, would be an engineering decision in the future, in the event the commission decides to go further into the matter, Adams pointed out.

CARD OF THANKS

We wish to take this method to thank all our friends and loved ones for their kindness to us in the loss of our little baby. Also wish to thank the nurses of P. and S. Hospital and Dr. Logsdon for each thing they did to make our loss easier to bear.

To each one who sent the lovely floral offerings we say, thanks, many times.—Mr. nd Mrs. Jerry McMillan and family.

EXTENSION OF CITY LIMITS FOR SCHOOL PURPOSES STUDIED

W. H. Norwood, superintendent of schools, was at the city hall Wednesday morning for a conference with Mayor Hubert T. Braselton to ascertain the present city administration's attitude toward extending municipal limits for school purposes only.

It was originally planned for the school board to meet informally with the city commission, but the commission could not hold the session Wednesday.

Norwood, who said previous administrations had frowned on the move, said he hoped to interest the current one in making the extensions to care for territory beyond the present bounds.

Mrs. W. R. Carmichael and son, Billie, of Bryan were here Tuesday morning en route home following a trip to Dallas and Frost.

Important Notice

All who are interested in Post Oak Cemetery near Roane will meet Sunday evening at cemetery, at 2 p. m., June 8th, to organize a Cemetery Association. Please come if interested.—Committee.

How women and girls may get wanted relief from functional periodic pain

Cardui is a liquid medicine which many women say has brought relief from the cramp-like agony and nervous strain of functional periodic distress. Here's how it may help:

1 Taken like a tonic, it should stimulate appetite, aid digestion,* thus help build resistance for the "time" to come.

2 Started 3 days before "your time", it should help relieve pain due to purely functional periodic causes.

Try Cardui. If it helps, you'll be glad you did.

LOOK INTO this 2-way help*

A BOY KING'S GREAT FIND THAT CLEANSED HIS COUNTRY*

Discovery of Forgotten Book of Law Resulted in Reform and Revival of Kingdom Of Judah - - Josiah's Good Reign and the Changes He Wrought.

By WILLIAM T. ELLIS and EARL L. DOUGLAS

An assortment of truths for these times may be found in this Lesson, which is a bright chapter in a dark record.

It all begins with a Bible-taught boy, Josiah, scion of rulers who had turned aside from their heritage as sons of David, was only eight years old when he began to reign. Here we have in a foreglance our current critical educational problem. Because the boy king was early brought under the right influence the character of the whole nation was changed.

Tomorrow's fate lies with today's children. The educattional slump of recent years is showing its results now; and we must look to tomorrow for the fruits of our present educational revival. Our fate is in the young hands of our Josiahs. We have to begin with our boys and girls if we are to have a new world. That is why the heaviest responsibility of the hour rests with parents and teachers. They are the real king-makers and destiny-shapers.

Found: A Book!

In the decline of Judah a a nation, the Book of the Law had first become unheeded, and then forgotten and lost. That is what sinful indulgence does: it crowds the Word of God out of a life. Neglect of the Bible is usually the beginning of spiritual and moral slump. "Thy word have I hid in my heart, that I might not sin against Thee." It was a lawless Judah that built shrines to Baal and Asherah and fell into all the idolatrous practices of the heathen. We cannot walk the world's way unless we discard the Scripture.

Somewhere in the recesses of the Temple in Jerusalem, Hilkiah, the high priest, on one momentous day found a copy of the Law. He took it to Shaphan the scribe, who, after reading the scroll himself, hastened with it to the king.

It is hard to believe that the Law had been so wholly forgotten by Judah. Yet we have but to look back upon the wickedness of Josiah's immediate predecessors to realize that sin in the life drives the Scripture from the soul. One cannot at the same time be a sin-serving and a Bible-loving person.

Other Lost Books

In our day Bibles are being lost beneath the dust of neglect and the overlay of irreverent critics.

The Bible that lies unread and dust-covered on the table, or tucked away on the top shelf in the library, is as truly lost as though it had been dropped into some hidden hole and forgotten.

Get that Bible down from its shelf, or lift it up from the table where it has so long been gathering dust, and begin to read and ponder it. Gaze upon its scenes, study its characters, meditate upon its sayings, practice its precepts, absorb its spirit. What will be the result? The old book you thought so dull, dry, and dead will begin to gleam and burn with light. You will discover it to be what the spiritually aspiring of all ages have found it to be, a bright pathway along which you may walk with satisfatction every day.

If all the lost Bibles were found and read and obeyed, the world would blaze with a new light.

And right here we have a fresh assurance in the world-wide increase of Bible circulation. During and since the war the production of Bibles, in whole or in part, attained staggering proportions. The Bible is not only the "best seller" among books, but is also the supreme life-changing agency. As of old in Josiah's case, it animates repentance, reform and holy living. It is the supreme Spirit-filled agency for the creation of the new world order.

The Reformer-King

Josiah was wise enough and brave enough to follow through with the consequences of the discovery of the Law. In the light of that lamp of truth, the king saw how idolatry had preverted the life of the entire nation. Even within the sacred walls of the Temple itself the altars and symbols of the licentious pagan worship had been set up. All over the land were the footprints of Baal.

So, bravely counselled by Hilkiah and Shaphan, and supported by the hidden multitudes who had never bowed the knee to Baal, the king swept his country clean of all outward signs of idolatry. It was a comprehensive and drastic movement such as has been rarely seen. He shared with the people his new knowledge of the Law, thus giving them a spiritual basis of a material cleansing of all Judah. The best school of effective good sitizenship is a knowledge of the Scriptures. The crusade that will conquer the evils of our world must fly the old flag, "It is the will of God."

After reform had triumphantly swept the land of Judah, the king called the people to an observance of the Passover.

SEVEN SENTENCE SERMONS

We talk of choosing our friends, but friends are self-elected.
—Emerson.

He who receives a benefit should never forget it; he who bestows one should never remember it.
—Charron.

Oh, what a tangled web we weave,
When first we practice to deceive.
--Anon.

In the boy see the man.
—Chinese Proverb.

Give me understanding, and I shall keep thy law.
—Psalms 119:34.

Lord, let me make this rule
To think of life as school,
And try my best
To stand each test,
And do my work,
And nothing shirk.
—Babcock.

Who (Christ) being the mightiest among the holy, and the holiest among the mighty, lifted empires off their hinges, turned aside the stream of the centuries and still rules the ages.
—Richter.

13-YEAR-OLD BOY IS BELIEVED SUFFERING FROM SPOTTED FEVER

A13-year old boy who lives in a suspected area of Rocky Mountain spotted fever, is under observation of physicians, it was announced Wednesday by Dr. Will Miller, acting director of the Corsicana-Navarro Health Unit.

The patient, Dr. Miller said, lives in the same area north of Corsicana, where is located the home of a family whose daughter died and whose 12-year old son was ill of the malady, Dr. Miller said.

The youth lives a short distance south of the tick-infested area along the old interurban right-of-way, not far from the home of Mary Ruth Gains, the 3-year old girl who died of the suspected fever.

Dr. Miller said the youth was not as sick as the other two children were, and remains at home. He said that blood samples had been taken from his body and forwarded to the laboratories of the Texas state department of health.

In the meantime, Miss Loreta Gaillard, city sanitarian, and Dr. Miller warned that the ticks have entered Corsicana.

They have been found in shrubs and berry vines within the city limits, Miss Gaillard said.

Residents were again urged to use caution in removing ticks from their bodies, and to avoid heavy thickets.

Students Register For Summer School

A total of 112 students registered for the summer term of the Junior and Senior high schools Wednesday morning, R. A. Armistead, high school principal, said at noon today.

There were only three students enrolling for summer school in the primary grades.

Armistead said that those who did not enroll Tuesday but are going to summer school should report for classes at 7:30 Thursday morning, and enrollment can be taken care of at that time.

Corsicanan Gets Master Of Music Degree From UT

Miss Lilla Jean Brown has been informed by the dean of the University of Texas that she has been awarded her master of music degree.

Corsicana Visitor

Sam T. Curry of Blooming Grove, former peace officer, was a Corsicana visitor Wednesday morning.

Notice

There will be a Homecoming Day at the Brushie Prairie Methodist church Sunday, June 15. Preaching at 11 a. m. by Rev. C. W. French, Jr. Dinner on the ground, and singing in the afternoon. The public is invited.

MRS. F. E. LARRISON FUNERAL SERVICES TUESDAY AFTERNOON

Mrs. Frank E. Larrison, resident of Corsicana 38 years, died at the Navarro Clinic Monday afternoon at 3:30 o'clock. She had been in ill health for several years.

Funeral services were held from the Griffin Funeral chapel Tuesday afternoon at 3 o'clock with interment in Oakwood cemetery.

The rites were conducted by Dr. Matthew Arnold, pastor of the Third Avenue Presbyterian church, of which Mrs Larrison was a member. Mrs. Larrison had been a member of the Presbyterian church since childhood.

Surviving are her husband, Frank E. Larrison, Corsicana; a daughter, Mrs. J. Keith Davis, Dallas; three brothers, Jim Wright, Canyon; Custer and G. C. Wright, both of Oklahoma: five sisters, Mrs. A. P. Morris, Vernon; Mrs. E. O. Phackston, Dallas: Mrs. W. R. Piper, Arlington; Mrs A. J. Pepper and Mrs. Davis both of Oregon, and other relatives.

Pallbearers were S. J. Miles, Sr.; Charles McQuiston, Joe Jefferson, John Pugh, Alton Justiss, Emmett Hall, J. S. Hicks and John C. Hughes.

Mildred Canning Plant Helping Housewives

In the past month the Mildred canning plant has been in operation helping housewives of the community to preserve fruits and vegetables, J H. Davis, vocational agriculture teacher at Mildred High school, has announced.

The plant is available each Monday, Wednesdy and Friday between the hours of 9 a. m. and 7 p. m. It is necessary for the patrons to bring their cans or jars to the processing center, Davis said.

Mrs. J. T. Grantham, Eureka, will be on hand each day to give instructions in proper methods of canning.

Seek Enlistments In Naval Reserve

Possibility of the formation of a naval electronics warfare company was announced here Tuesday by representatives of the Navy who will be in the post office during the week to accept enlistments and re-enlistments in Reserve and Regular Navy.

Lt Commdr. Houser and Chief Anderson stated there were five ex-navy officers and forty former enlisted men who have the necessary qualifications. Enlistments will be also be open to men from 17-39.

The representatives said that in even such a unit is organized here it will offer excellent opportunities as a refresher for those with previous experience and good educational facilities for those who wish to learn electronics.

CARD OF THANKS

We wish to take this means of expressing our heartfelt appreciation for the kindness and sympathy rendered us during the illness and death of our loved one. Especially do we thank Dr. Burnett for his services, Rev. A. J. Kirkland for his ray of hope given us, and Mr. Griffin of the Griffin Funeral Home. May God bless each one.—Mrs. W. R. Spears and children.

58 Marriage Licenses Issued During Month

Dan Cupid still held the lead during the Month of May, when there were 58 marriage licenses issued at the office of the county clerk, as against 38 divorce cases filed in the district clerk's office.

Judge A. P. Mays in some cases undid the knot that Cupid tied, and granted 14 divorces during the month. He heard 13 civil cases during the same period, while there were only 11 civil cases filed.

The past week-end was a busy one for county officers, who were forced to give so many offenders free lodging in the county jail that the total for the month went slightly over that for April. A total of 106 were jailed in April, and 115 in May.

Mr. and Mrs. T. R. Womack of Kerrville are visiting in the homes of relatives and friends.

PROGRESS OF A PROGRAM

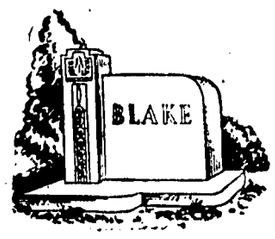

"Monuments are a Necessity for they depend strictly on sentiment and any nation devoid of sentiment cannot survive."
—President Woodrow Wilson.

The constant policy of our firm has been to offer the best marble and granite, combined with skilled workmanship, giving our customers a memorial of which they can truly be proud - - "a tribute of respect and honor to the dead, a constant source of inspiration to the living."

As the oldest monumental business under the same continuous ownership in the county, we have never felt that experience - - whether it be ten years or a hundred years - - means as much to a family as does the Satisfaction our beautifully finished memorials bring to the Hearts of the people we serve.

We are grateful for the confidence you have placed with us for over a quarter century. Each customer's order demands and receives our personal attention to produce the finest obtainable memorial.

EIGHT RESIDENTS OF COUNTY APPLY FOR PASSPORTS IN MAY

Navarro countians made applications for eight passports to foreign countries during the month of May, J. C. (Rusty) Gaston, district clerk, revealed this week.

Applications are made to Gaston, who forwards them to the State Department in Washington.

The following Navarro county people have applied:

Mrs. Billie Rubottom, who will accompany her husband, R. R. Rubottom to Colombia, South America, when he takes his post there with the U. S. Department of State.

Rev. and Mrs. Jared I. Cartlidge, who will attend the meeting of the Baptist World Alliance in Copenhagen, Denmark.

Ray Simmons of Corsicana, who will go to Venezuela, South America, where he will be employed by an oil company.

Mrs. Hazel Pitcock, who will join her husband in South America.

Mrs. Allie Sue Thompson and Mrs. Glenna Foster, both of Corsicana, who will join their GI husbands in Korea.

Mrs. Jodie Potts of Corsicana and Mrs. Pauline Ely of Roane, who will join their soldier-husbands in Japan proper.

Tehuacana Methodist Minister Honored

NASHVILLE, Tenn., June 5.—(Spl.)—The Rev. Carroll H. Thompson, pastor of the Methodist church at Tehuacana, Texas, has been chosen one of a group of 22 outstanding young ministers who will attend a seminar in Christian education at Boston University, July 7-August 8, it has been announced by the department of Leadership Education, Methodist general board of education, with headquarters here.

Author of the Week

By W. G. ROGERS

Joyce Cary, author of "The Moonlight," spent a long time getting ready to write novels Donegal-born and Oxford-educated, he served in the army and his country's colonial administration, tried to write, stopped to study some more, and then went back at it again, producing his first work in 1930. "The Moonlight" is his 11th novel, his 14th book, and his second to be presented to American readers: this stands a good chance of creating for him in this country the same enviable reputation which he enjoys at home.

LEGISLATURE

CONTINUED FROM FIRST PAGE

this stage before final adjournment, may be had on a simple majority.

That would mean these bills would go to the comptroller. They, along with the rural road measure, have all been estimated to make demands on state financial resources beyond the comptroller's estimate of revenue.

The senate adopted two more proposed constitutional amendments.

Amendments Voted.

One would preserve the $3,000 homestead exemption on general fund ad valorem taxes if voters at the polls adopt another constitutional amendment which would transfer the present state tax to county use. Both those proposals will be voted on in November, 1948.

The second constitutional amendment adopted today would abolish the fee system of paying county officials in all Texas counties and require instead specified salaries. Amount of salaries would be left to decisons of individual county commissioners courts. Counties under 20,000 population are the principal ones affected.

The proposal must return to the house for action on a senate amendment which would limit counties under 20,000 population to two constables and two justices of the peace. Eight are now authorized.

Vets' Land Favored.

The house adopted a concurrent resolution—in which the senate would have to join—to bring up the veterans' land bill in the last 24 hours.

"Let's give the senate the last shot at this measure," said Rep. John Bell of Cuero, sponsor of the house-passed measure on which the senate has not finally acted.

Representatives crowded around the house microphone with similar resolutions on dozens of other measures, attempting to get last-minute action.

"The "24-hour rule" prevents either house from considering any measure during the last 24 hours of its session except on four-fifths vote of conference committee reports. Earlier, the house had adopted a resolution suspending this joint rule, but the senate refused to approve it.

Rural Roads Favored.

The house voted to consider the house rural road bill, 112 to 19, at three minutes before 12 noon.

Pandemonium gripped the house as Bean shouted into the microphone that "if you pass the rural road bill without my amendment, you'll go home knowing damn well there's no money to pay for the roads."

Immediately after the speaker banged his gavel and declared the bill dead, the house adopted another resolution which, if approved by the senate, would allow the house to consider the senate $30,000,000 rural road bill. This is companion to the defunct house bill, and was passed by the senate last night.

The fast-breaking developments in the house followed the senate's last-minute spending spree which pushed through to final passage there and back to the house with amendments bill appropriating $3,395,000 for individual projects scattered through the state.

Appropriations Voted.

All were passed by voice vote.

Included ware appropriations of: $1,000,000 for a Dallas cancer and pellagra hospital.

$1,000,000 for university of Texas medical school branch at San Antonio.

$1,000,000 for raising Lamar Junior College at Beaumont to a four-year technological college.

$90,000 for a museum at Texas Tech and Lubbock.

$90,000 for a museum at West Texas State Teachers College at Canyon.

$125,000 for an addition to the Texas Memorial Museum at Austin.

Whether or not the administration's carefully nurtured plans to keep appropriations and anticipated revenue in balance will upset on the red side is expected to furnish plenty of fuel for a fiery finish to the 50th session. It ends at noon tomorrow.

The senate's spending splurge late last night came at the end of the session's longest legislative day during which the house joins the senate in voting final approval of a plan designed to guarantee redistricting of the state for lawmaking representation every ten years.

It was the first time since 1921 that any legislature had taken positive action on the issue. It was rated by many as the major accomplishment of the session in that it affects every citizen in the state.

What the senate did was to vote final passage on a $30,000,000 rural road appropriation, sending it to the house, and to advance other money bills making up a total of nearly $32,000,000. Whether there are enough votes and enough time remaining to the 50th session to put the state back in the red remains to be seen.

The 50th session in a last-minute resurgence of sentiment on redistricting, voted yesterday to submit to the people a constitutional amendment empowering a board to re-apportion the state if the legislature fails to follow the existing constitutional mandate to do so.

Long, Busy Day.

This affirmative house action on a senate-approved proposed constitutional amendment came at the end of one of the session's longest and busiest legislative days headlined first by the decision to adjourn finally at noon tomorrow.

The amendment, if adopted by the people at the general election in 1948, provides that a board reallocate legislative representation after each succeeding federal census if the legislature fails to act, as it has for the last 26 years in the face of shifting populations.

This board would be made up of the lieutenant governor, the speaker of the house, the land commissioner, the comptroller, and the attorney general. The plan would go into effect after the 1950 census.

Vote 100 to 36.

Rep. Joe Kilgore of McAllen led the long, hard fight in which house redistricting forces adopted the submission resolution by a vote of 100 to 36. Kilgore said the fundamental issue at stake was "the same as at the Boston tea party—taxation without representation."

Redistricing advocates contend there is no justice in the present situataion, with highly inequitable representation for the public in the legislature. This is premised on the fact that populations have radically shifted westward and southward in recent years.

Speaker of the House W. O. Reed cast the 100th decisive vote on the question—which requires that majority for adoption—after a bitter parliamentary struggle by opponents to both the plan down. The house earlier this session killed a redistricting bill. A similar measire died in the senate.

Opponents Are Bitter.

Opponents attacked the proposal as unwarranted delegation of legislative authority to a committee. Rep. Wayne Waggonseller of Fruitland told the house that "the facts are exactly contrary to what Kilgore said."

"By adopting this, you will follow the same line of thought that prevailed in Nazi Germany and prevails in Russia today," he argued. "That line of thought that the people and their representatives do not know how to govern themselves and that dictatorship must do it for them."

It was the second submission of a constitutional amendment voted during the day. The senate finally approved one authorizing establishment of retirement system for the judiciary.

$30,000,000 Deficit Spending.

In a session that lasted past midnight, the senate splurged into a spending spree of more than $30,000,000 of funds that are neither available nor in sight.

The senate finally passed a $30,000,000 appropriation to build farm-to-market roads and a $1,500,000 appropriation for a statewide soil conservation program.

It advanced to third reading, leaving final passage pending today, three amended house-passed bills appropriating $1,000,000 for a four-year technological college at Lamar Junior College in Beaumont, $1,000,000 for a Dallas cancer and pellegra hospital and $800,000 for a University of Texas medical branch at San Antonio.

Long Way From Law.

All the spending was a long way from becoming law.

None of the measures approved at the midnight meeting of the senate is ready to go to the governor. The senate had trimmed the soil conservation bill passed by the house from $3,000,000 to $1,500,000 and it must return to the house for concurrence. The other last-minute measures go back to the house.

Other appropriation bills finally approved yesterday in the upper house were $25,000 for a tubercular hospital at Laredo, $18,000 to operate the Good neighbor commission on a permanent basis, $62,500 for the state's seven newly created junior colleges, $1,500 for the state board of cosmetology, $250,000 for contingent expense of the legislature, and $1,500 to pay expenses of presidential electors.

The senate also:

Passed and sent to the governor a house-passed bill abolishing high school fraternities and sororities.

Election Time Changed.

Passed and sent to the governor a bill requiring all election polls to remain open from 7 a. m. to 7 p. m. on election days.

The house refused, 69-37 to suspend regular order of business to take up Rep. George Nokes' revamped bill to replace the veterans' service office by a state board of veterans' affairs.

The measure is the second effort of Nokes to create a state veterans' board which would coordinate efforts of federal, state and veterans' organizations. The second bill was stamped by the governor as "desired legislation."

NEW YORK STOCK EXCHANGE

(By The Associated Press)

NEW YORK, June 5.—(AP)—In the absence of really inspiring news the stock market today drifted through one of the slowest sessions of the past year with most leaders failing to make much progress and numerous minus signs persisting.

The direction was indefinite from the start. There was a mild buying flurry around midday but modest gains were subsequently erased in a number of instances. Irregularity ruled in the majority of departments at the close. Transfers contracted to around 500,000 shares.

Standard Oil (NJ) touched another new 1947 top before meeting offerings. Ahead were Union Pacific, Pacific Western Oil, Texas Pacific Land Trust, Woolworth, Douglas Aircraft, Eastern Air Lines, Union Carbide and American Telephone.

Backward were U. S. Steel, Bethlehem, Sears roebuck, Santa Fe, Chesapeake and Ohio, American Can, Caterpillar Tractor, Youngstown Sheet, U. S. Gypsum, International Harvester, Anaconda, Western Union "A," and Goodrich.

Bonds were uneven.

New York Cotton Table

NEW YORK, June 5.—(AP)—Cotton futures were irregular in slow trading today. Nearby deliveries were firm on persistent covering in the July, 1947, delivery and some mill buying. Deferred deliveries were quiet, pending crop developments.

Renewed reports that the Army will soon enter the market for cotton to meet Japan's needs were accompanied by beliefs low grades not used by domestic mills may be bought in the minimum amount required for June and July shipments.

Spot cotton markets were quiet.

Cotton futures rallied into new highs for the day on a late flurry of mill buying and short covering which disclosed only limited offerings.

Futures closed 55 cents to $1.55 a bale higher than the previous close.

Sorghums No. 2 yellow milo per 100 lbs 3.18-22.

Grain Futures Slow

CHICAGO, May 5.—(AP)—Most of the activity on the Board of Trade today was centered in oats, which advanced about a cent to new seasonal highs while wheat and corn showed only minor changes. Best prices in oats were reduced toward the close.

All grains were firm at the start, but wheat and corn soon gave up their advance. Selling in wheat came from houses with Southwestern connections and was presumed to represent hedging pressure.

It was officially announced in Washington that a new scale of flour buying prices by the Production and Marketing Administration represents a cut of 10 cents a hundred pounds from previous paying prices.

Wheat closed 3-4 lower to 1-2 higher, July $2.28-2.28 1-4, corn was 1 cent lower to 3-4 higher, July $1.85 3-4 7-8, and oats were 7-8 to 1 1-2 higher, Jul 93 7-8 94.

Chicago Cash Grain

Auxiliary Of Petty's Chapel In Session

The Ladies Auxiliary of the Pettys' Chapel Baptist Church held their regular meeting Tuesday afternoon at the church.

Mrs. Lester Garner brought the devotional and Mrs. E. E Payne led the opening prayer. Mrs. Ed Howell and Mrs. Mike Edwards sang a duet, with Mrs. Harold Blankenship accompanying them on the piano. Mrs. Frank Wilson dismissed the meeting with a prayer.

The Weather

East Texas—Partly cloudy this afternoon, tonight and Friday; a few widely scattered thundershowers in extreme east potrion this afternoon and near the upper coast Friday; not much change in temperature. Moderate to occasionally fresh southeast winds on coast.

West Texas—Partly cloudy this afternoon, tonight and Friday; a few widely scattered afternoon thundershowers in Panhandle; not much change in temperature.

High and low readings on the government thermometer for the 24-hour period ending at 7 a. m. Thursday were 89 and 68.

Cedar Creek W.M.U. In Monday Session

The Cedar Creek Baptist Women's Missionary Union met at the church on Monday, June 2, with Mrs. Minnie Boone in charge.

Mrs. Dee Christie, accompanied by Mrs. Etta Skinner, led several songs. Mrs. Odera Henson read the devotional and Mrs. Alva Clark taught the lesson.

The next meeting of the union will be at the church on June 16. Visitors are cordially invited.

Miss Irene McCrery of Dallas is visiting in the home of her sisters, Misses Jodie and Sue McCrery.

COUNTY CANCER FUND CAMPAIGN WILL BE CLOSED THIS WEEK

A campaign to raise $1,962 in Navarro County for the American Cancer Society will close this week, W. H. Cruse, Corsicana chairman, said Thursday as he announced the total so far raised was $798.51.

Cruse asked the block captains and representatives of various civic groups participating in the drive make reports on their work progress immediately so that a final total can be struck.

Several captains or workers have not filed any reports, he said.

Contributions totaling $24 were announced Thursday. They were from the following sources:

Anonymous, $10; Murphy Williams, $1; H. C. Estes, $2; Jones Estes, 50c; T. G. Hilyer, 50c; Ike Tucker, 50c; J. D. Russell, 50c; R. H. Peacock, 50c; Otis Tucker, 50c. Tucker Bros. Garage, $5; C. E. Rogers, $2; L. C. Cook, $1.

Brownilee Parker, Lewis Boyd Take Vows At Kerens

KERENS, June 5.—(Spl.)—Miss Brownilee Parker, daughter of Mr. and Mrs. Leslie Parker of Kerens, became the bride of Walter Lewis Boyd, son of Mr. and Mrs. John Boyd, Eureka, at the First Baptist church Saturday evening, at 7:30 o'clock.

The Rev. J. W. Ousley of Waco read the impressive ring ceremony before an altar decorated with gladioli in pastel hues in tall wicker baskets, flanked by floor candelabra in which burned white tapers.

Miss Ann Bain was at the piano for a prelude of pre-nuptial melodies, and the accompaniments for Miss Essie Salmon of Houston, who sang "Because" and "One Alone."

Bridal Gown Described.

The bride, given in marriage by her father, wore a gown of white slipper satin, fashioned with fitted bodice, long fitted sleeves which tapered to points over the hands, and a bouffant skirt which swept into a voluminous train. Her fingertip veil of bridal illusion extended from a bandeau of pearls and orange blossoms. She carried a purple orchid, tied with satin ribbon, on a white Bible.

Miss Robbie Nell Parker, dressed in yellow dotted Swiss and carrying a colonial bouquet of Sweetheart roses and sweetpeas, attended her sister as maid of honor.

Attendants Listed.

Mrs. Dan Freeman was matron of honor, and Misses Darrell Mabry, Billie Ruth Leslie, Betty Young, Pat Newsome, Mary Ann Fite, Jacqueline Reese, were the bridesmaids.

Their dresses were fashioned of net and taffeta in rainbow hues, and they carried colonial bouquests. Little Miss Ann Kerley, dressed in white satin, was the flower girl.

J. A. Penny, Jr., of Corsicana, was best man, and J. B. Floyd, James Luther Whorton, Zack Boyd of Corsicana, Bev Henson, Cecil Parker and Dan Freeman were ushers and groomsmen.

Douglas Howell and Perry Price lighted the altar candles.

Reception at Bride's Home.

Immediately following the ceremony, a reception was held at the home of the bride's parents. The bride's table was laid in white embroidered linen and held a profusion of Esther Reed daisies, double larkspur and phlox, complemented by lighted white tapers in crystal holders. The three-tiered wedding cake was decorated with roses and topped with a miniature bride and bridegroom.

Mrs. J. L. Tracy of Fort Worth presided at the punch bowl and Mrs. W. L. Bain, Jr., served the cake.

On Wedding Trip.

When the couple left for a wedding trip the bride was wearing a rose gaberdine suit with brown and white hat, shoes and bag.

They will reside at 600 North Fifteenth street, Waco, where the bridegroom is associated with the DeWitt Clark Lumber Co.

The bride graduated from Kerens High school and attended Sam Houston College at Huntsville.

The bridegroom is a graduate of Mildred High school. He served three years in the U. S. army in the South Pacific and European areas.

Out-of-Town Guests.

Out-of-town guests attending the wedding were Mrs. Alene McMahon, Newton; Essie Selman, Bettye Young, Mr. and Mrs. R. Z. Kerley and Mr. and Mrs. W. H. Kerley, all of Houston; John Kilgo, Rosebud; Billie Ruth Leslie, Goose Creek; Mr. and Mrs. Roy Autrey, Coleman; and Mr. and Mrs. J. L. Tracy and sons, Fort Worth; Mr. and Mrs. Bob Condelet, Fort Worth; Mrs. June Lackey and daughters, Bangor, Penn.; Mr. and Mrs. Carl Murdock and daughter, Mr. and Mrs. Mack Bell, Mr. and Mrs. Willard Parker and son, Mr. and Mrs. Pete Ratliff, Mr. and Mrs. Zack Boyd and Mr. and Mrs. Herbert Grantham, all of Corsicana; Mr. and Mrs. Tim Grantham, Mr. and Mrs. John Boyd and Mr. and Mrs. J. A. Penny and children, all of Eureka, and Joan Stacy of Navarro.

ILL FATED EMPEROR—This is a picture of the Canadian steamship "Emperor" which sank in Lake Superior at a point off Isle Royale while enroute from Port Arthur, Ont., to Ashtabula, O., with a load of ore. There were twelve victims in the sinking. (AP Wirephoto)

Company Offer Is Accepted By Union

DALLAS, Tex., June 5—(AP)—Spokesmen of striking maintenance workers of the Southwestern Greyhound Bus Line announced that locals voted last night to accept the company's offer of five to 24 cents an hour wage increase and return to work in the nine-state southeastern area.

L. G. Fenn, Dallas agent of the International Association of Machinists, the striking unions, said that the raises would mean as much as $35 a month for shop clerks and parts men, two of the lower paid classifications. Mechanics received five to 10 cents an hour raises. The basic wage rate before the strike, which began April 1, was $1.20 to $1.30 an hour.

Thomas Lyndon, business agent of the Kansas City Local, said that his union recommended that the new agreement be effective only one year, instead of two as propsd by the company.

During the strike schedules were maintained and maintenance work on buses was done at filling stations and small-town garages.

LEGISLATURE FAILS TO ACT FOR TEXAS VETERANS, DESPITE MANY PROPOSALS AND FEW ARGUMENTS

BY GARTH JONES

AUSTIN, June 5.—(AP)—Voters who expected to see returning veterans arise and revolt during the 50th legislature are still looking for the first signs of smoke.

Most of the predicted blood battles dwindled into minor skirmishes with a few scratches and bruises.

At the beginning of the session the Texas veteran had:

Three Benefits Provided.

(1) A veterans state service office to disseminate information and maintain liaison between veterans organizations.

(2) A veterans service bill giving him priority in seeking employment.

(3) A constitutional amendment, approved last Nov. 7 by Texas voters, authorizing the state to help veterans purchase farms and ranches.

After 143 days of lawmaking, the Texas veterans have exactly the same things—and no more.

Bonus Not Voted.

This legislature has failed to agree on a veterans' bonus, to reorganize the veterans state service office, or to set up the administration for the authorized farm and ranch loans.

The apparent answer is that this legislature was not veterans-legislation-conscious.

Greatest possibility of a veterans' bloc lay in the house where the roll showed 84 veterans.

However, only one measure passed the house—a revamped bill by Rep. John Bell of Cuero to set up a board for resale of state-acquired lands to World War II veterans.

Dies By Adjournment.

The 72-hour adjournment rule caught Bell's bill in the senate listed as unfinished business.

At an earlier session this week opponents of the bill, most of them ex-GI's, argued that it was "maudlin sentimentality x x x fixing to put the veteran into bankruptcy."

The only other veterans' measure to reach the debate stage in either chamber was Rep. George Nokes' proposal to replace the veterans state service office with a state board of veterans affairs. It passed two readings in the house but was not brought up for final passage.

Huge Bonus Studied.

The veterans bonus question thundered several times but caused no great consternation.

Rep. Gordon Davis of Waco proposed to give World War II veterans $600,500,000. Several days later he included World War I veterans and raised the ante to $800,500,000. Rep. Roger Q. Evans of Denison suggested $300,000,000 to $400,000,000 in bonuses ranging from $200 to $1,000. Rep. James C. Spencer of Athens proposed bonuses of $50 to $500 to total about $200,000,000.

All remained buried in subcommittees until earlier this week.

One Hearing Held.

Evans succeeded in obtaining a hearing on his bill before the house acting as a committee as a whole. Spencer submitted a reworked version of his bill as a substitute.

The entire question was sent to another sub-committee.

Another veternas matter this session was a $55,000 appropriation request from the veterans state service office to administer the on-the-job training program under the GI bill of rights. Legislators granted the appropriation but placed the money in the hands of the adjutant general.

DISCUSSION OF "CHILDREN AND THE LAW" BY JUDGE MAYS WSCS MEETING FEATURE ON MONDAY

In a discussion of "Children and the Law" at the regular meeting of the Woman's Society of Christian Service of First Methodist Church on Monday morning, District Judge A. P. Mays stated that eighty-three juvenile delinquency cases had been filed in his court since January, 1944. Continuing he stated that thirty-one of the delinquents had been paroled to their parents, twenty-six had been dismissed and twenty-six had been sent to the reformatory. Three times eigthy-three delinquents (averaging at least one week) had appeared in his court since January, 1944, he stated, but only eighty-three had been serious enough to enter on court records.

In enumerating the various causes of delinquency, Judge Mays listed divorce and broken homes, the economic question and the fact that children are not permitted to remain long in the realms of imagination, but are thrown out into a work-a-day world too early in life.

In speaking of divorce, Judge Mays stated that thirty-one percent of all marriages in the nation end in divorce, and called attention to the fact that more than fifty percent of all marriages in this community are terminated by divorce.

There are justifiable reasons for divorce, the speaker stated, but, in every case the children suffer, he pointed out.

Delinquency rests mainly with the home, the speaker stated, adding that the church and school may help in preventing delinquency, but the home has the final responsibility. Mothers of the nation are the disciplinarians and must imbue their children with Christianity, the speaker advised. Mothers must assist in solving the ever-increasing problems of delinquency, the speaker asserted in concluding his discussion which he termed "a broad and comprehensive picture of the local situation."

Mrs. Suttle Roberts was program chairman for the day and Mrs. W. B. Robinson introduced the speaker.

Business Session

Mrs. R. H. Doke called the meeting to order and Mrs. W. M. Gatlin contributed the devotional message. Mrs. W. B. Robinsin read the minutes of last meeting and Mrs. J. J. Bryant gave the treasurer's report. Circle II reported twelve members in attendance.

Attention was called to the meeting of the Corsicana Council of Church Women on Friday at Third Avenue Presbyterian Church at 10 o'clock, at which time M. S. Moore of Dallas, regional secretary of American Mission to Lepers, will be the principal speaker.

An offering for the Leper Project of the Council was taken at the covered dish luncheon that followed the meeting. Mrs. M. H. Sandwich's Circle II had charge of serving the luncheon.

The next meeting of the various Circles of the Society will be held on Monday, June 9th, at 3 o'clock in the various rooms of the Educational Building, with a joint program and social session scheduled for 4 o'clock, with Circles II and VII as hostesses.

After the luncheon, the ladies were invited into the "Make It and Take It" exhibit of the Intermediate Department of the Sunday School, with Mrs. O. W. Bailey, superintendent, in charge. Cakes, pies, candies, and various other edibles had been made by the Intermediate girls and brought to the Educational Building and put on sale in order to raise money to attend Glen Lake Camp in August. Mrs. Bailey explained that the boys of the Department are mowing lawns to raise their part of the camp fees.

Announces Arrival of Son

Mr. and Mrs. Deen Allen announce the arrival of a son, Wm. Dean Allen, Jr., at P. & S. Hospital on Thursday morning at 9:34 o'clock, weighing six pounds and fourteen ounces.

Maternal and paternal grandmothers are Mesdames Agnes Loney and Paul E. Allen.

BETROTHAL REVEALED—Dr. and Mrs. William K. Logsdon announce the engagement and approaching marriage of their daughter, Constasce, to Robert Lewis Anderson, son of Mr. and Mrs. Fred P. Anderson of Tonowa, Kansas. Miss Logsdon attended Bennett Junior College, Millbrook, N. Y., and the University of Texas where she is a member of Zeta Tau Alpha sorority. She is a graduate of Powers School in New York. Mr. Anderson attended St. Benedicts College and Kansas University. He served as a Captain in the U. S. Army Air Forces in the Mediterranean theater of war. The wedding will take place June 28th at the home of the bride's parents, 608 Mills Place.

WMU Of Powell Baptist To Meet Monday Afternoon

The WMU of the Powell Baptist Church will meet in regular session on Monday, June 9, at 2:30 p. m. in the home of Mrs. Gordon Crawford. In case of inclement weather the meeting will be held in the home of Mrs. V. T. Haynie.

The program will be devoted to a missionary study of the American negro. The following topics will be discussed:

Meet the American Negro—Mrs. E. R. Wright.

A Problem and a Challenge—Mrs. J. L. Owen.

Mary McLeod Bethune—Mrs. Gordon Crawford.

Negro Baptist—Mrs. O. A. Rutherford.

Ralph Waldo Riley—Mrs. W. L. Chewning.

Locking at the Stars—Mrs. C. C. Holloway.

All members are urged to be present and visitors are cordially invited.

District Meeting

Vocational agriculture instructors of Navarro County Vocational Training school attended a district meeting of county school faculties Thursday in Groesbeck.

R. L. Evans, coordinator of the local school, led the instructors to the monthly meeting. Current problems facing the schools were discussed.

Mr. and Mrs. A. L. Tomlin and son, Jerry, of Emhouse were in Waco Monday to attend graduation exercises at Baylor University, in which their son and brother, Curtis Tomlin, received has Bachelor of Arts degree.

Rev. Joe McAfee, who has been attending Texas Wesleyan College in Fort Worth, is visiting in the home of his parents, Mr. and Mrs. LeRoy McAfee.

KRESS LICENSE PUTS '47 BUILDING PERMITS ABOVE HALF-MILLION

Corsicana building permits spurted by the half-million dollar mark Tuesday as authorization was given S. H. Kress and Co., to erect its $100,000 building at Beaton and Collin.

The permit was issued at the city hall late Monday afternoon and covered construction of the two-story concrete and brick business building.

The permit, second largest of 1947, brought the total for the year to $513,037.

The largest permit was for $200,000 and covered construction of the Texas Miller Products Co.'s new hat factory on Highway 75.

Cowdin Bros., Dallas contractors, is in charge of construction of the 5-10-25-cent company's new building.

The contractor has been on the job for two months demolishing the old building which stood on the site, and making excavations.

MERGER

CONTINUED FROM FIRST PAGE

ter he has no major changes in mind.

"I may have a few little revisions to offer and I didn't want to be bound by the committee vote from doing so," Bridges said.

Training Hearings Sought

Despite their differing views on the unification bill, Bridges and Robertson agreed on a related matter. Both said they want the armed services committee to hold hearings as soon as possible on universal training. The committee will decide about this next week, even though prospects for final action this year are virtually nonexistent.

Tommy Hooser, Jr., and Chas. H. Hooser of Frost, grandsons of Mrs. C. A. Haden, have enrolled for the summer session at the University of Texas. Chas. H. Hooser has been a student at TCU, Fort Worth.
